## § 1410.2

## 7 CFR Ch. XIV (1-1-04 Edition)

(f) Notwithstanding other provisions of this section, the Erodibility Index (EI), suitability of land for permanent vegetative or water cover, factors for determining the likelihood of improved water quality, and adequacy of the planned practice to achieve desired objectives shall be determined by the Natural Resource Conservation Service (NRCS) or other sources approved by CCC, in accordance with the Field Office Technical Guide (FOTG) of NRCS or other guidelines deemed appropriate by NRCS. In no case shall such determination compel CCC to execute a contract that CCC does not believe will serve the purposes of the program established by this part. Any approved technical authority shall utilize CRP guidelines established by CCC.

(g) CCC may consult with the Forest Service (FS), a State forestry agency, or other organizations as determined by CCC to be necessary for developing and implementing conservation plans that include tree planting as the appropriate practice or as a component of a practice.

(h) CCC may consult with the Cooperative State Research, Education, and Extension Service to coordinate a related information and education program as deemed appropriate to implement the Conservation Reserve Program (CRP).

(i) CCC may consult with the National Marine Fisheries Service, U.S. Fish and Wildlife Service (FWS), or State wildlife agencies for such assistance as is determined necessary by CCC to implement the CRP.

(j) The regulations governing the CRP as of May 12, 2002, shall continue to govern contracts in effect as of that date (see 7 CFR part 1410 contained in the edition of 7 CFR Parts 1200 to 1599 revised as of January 1, 2003). This part shall apply to contracts executed on or after May 13, 2002
