

NUREG-1556, Volume 11, "Consolidated Guidance about Materials Licenses: Program-Specific Guidance about Licenses of Broad Scope," and requested comments on it. This draft NUREG report was the eleventh program-specific guidance developed to support an improved materials licensing process. The NRC staff considered all the comments, including constructive suggestions to improve the document, in the preparation of the final NUREG report.

The final version of NUREG-1556, Volume 11, is now available for use by applicants, licensees, NRC license reviewers, and other NRC staff. It supersedes the guidance for applicants and licensees previously found in Draft Regulatory Guide DG-0005 dated October 1994. Included in this guidance is a new option for Type A licensees of broad scope to have increased flexibility to make changes in some program areas and revise some procedures previously approved by NRC without amendment of the license. This option is discussed in detail in Chapter 1 of this document. Draft NUREG-1556, Volume 11, is not intended to be used alone. Because broad-scope licensees may be involved in many different program areas (e.g., medicine, research and development, manufacturing and distribution, etc.), this document frequently refers the user to other more program-specific guidance documents in the NUREG-1556 series.

Electronic Access

NUREG-1556, Volume 11, will also be available electronically approximately 1 month after publication of this notice by visiting NRC's Home Page (<http://www.nrc.gov>) and choosing "Nuclear Materials," and then "NUREG-1556, Volume 11."

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The CBOE proposes to amend Rule 2.30 relating to fees for delayed submission of trade information. The text of the proposed rule change is available at the Office of the Secretary, CBOE and at the Commission.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the CBOE included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The CBOE has prepared summaries, set forth in Section A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to amend CBOE Rule 2.30 to provide that the appropriate Clearing Procedure Committee ("Committee") may determine, with due notice, the date when certain time reductions will go into effect for delayed submission of trade match information. Under the current rule, approved by the Commission in November 1998,⁴ trade match submission time is reduced in three phases from two (2) hours down to one (1) hour over a period of six months. The rule states that the first time reduction will go into effect on January 1, 1999, and will require timely trade submission to be within ninety (90) minutes of execution. The next reduction was scheduled to go into effect on April 1, 1999, and would require timely trade submission to be within seventy five (75) minutes of execution. Finally, from July 1, 1999, forward, the Exchange would have required that timely trade submission be within one (1) hour of execution.

Due to a discrete system problem affecting the trade match system since the inception of this Rule, the Exchange has applied an exception under CBOE Rule 2.30(f)(1)(C)(ii), Extenuating
