Electric Program Standard Contract Forms

AGENCY: Rural Utilities Service, USDA.

SUMMARY: The Rural Utilities Service (RUS) is amending its regulations to change the manner in which it publishes the standard forms of contracts that borrowers are required to use when contracting for construction, procurement, engineering services, or architectural services financed through loans made or guaranteed by RUS. The required contract forms are currently published in text format in the Code of Federal Regulations (CFR). This final rule would eliminate this unnecessary and burdensome publication in the CFR.

DATES: Effective October 30, 1998.

No retroactive effect will be given to this rule and in accordance with § 212(e) of the Department of Agriculture Reorganization Act of 1994 (7 U.S.C. § 6912(e)) administrative appeal procedures, if any, must be exhausted before an action against the Department or its agencies may be initiated.

Regulatory Flexibility Act Certification

The Administrator of RUS has determined that this rule will not have significant impact on a substantial number of small entities defined in the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), and therefore, the Regulatory Flexibility Act does not apply to this rule.

National Environmental Policy Act Certification

The Administrator of RUS has determined that this final rule will not significantly affect the quality of the human environment as defined by the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*). This final rule contains no Federal mandates (under the regulatory provision of Title II of the Unfunded Mandates Reform Act of 1995) for State, local, and tribal governments or the private sector. Thus, this final rule is not subject to the requirements of sections 202 and 205 of the Unfunded Mandates Reform Act of 1995.

Background

RUS will change the manner in which it publishes the standard forms of contracts that borrowers are required to use when contracting for construction, procurement, architectural, or engineering services financed through loans made or guaranteed by RUS.

The standard loan agreement between RUS and its borrowers provides that, in accordance with applicable RUS regulations, the borrower shall use standard forms of contracts promulgated by RUS for construction, procurement, engineering services, and architectural services financed by a loan made or guaranteed by RUS. See section 5.16 of appendix A to subpart C to part 1718.

RUS currently implements these provisions of its loan agreement through parts 1724 and 1726 which generally prescribe when and how borrowers are required to use RUS standard form contracts and identify the standard contract forms to be used. Title 7 CFR part 1724 covers engineering and architectural services contract forms, and 7 CFR part 1726 covers construction and procurement contract forms.

The required standard contract forms currently are published in full text format in title 7 of the CFR (see, e.g.,

§§ 1724.74–1724.76 and § 1726.312–1726.352.) RUS also publishes forms of contracts which serve as guidance to borrowers and which borrowers may use at their discretion. All of these forms are available, in a format suitable for use as a contract, from RUS or the Government Printing Office (GPO), as provided in § 1724.70 and § 1726.300. If an RUS borrower is required by part 1724 or 1726 to use a form of contract, the borrower must use the contract form in that format available from RUS or GPO. RUS believes that the current system of publishing the complete text of the contract forms in the CFR is unnecessary and that, consistent with the agency's objective to streamline regulatory text and to provide borrowers with a user friendly regulatory system, the complete text of the required contract forms should no longer be published in the CFR.

Rather than publish the complete text of the standard contract forms in the CFR, RUS will identify in § 1724.74 and § 1726.304 all required contract forms by number, issue date, name, purpose, and source. To the extent that RUS may be required to publish its forms of contract pursuant to section 552(a) of the Administrative Procedure Act (APA) (5 U.S.C. 552(a)) or otherwise, such requirement is met by the identification of the standard contract forms in parts 1724 and 1726. Moreover, RUS provides all borrowers with actual notice of the forms of contract they are required to use in contracting. As the rule states in § 1724.73 and § 1726.303, upon initially entering into a loan agreement with RUS, borrowers are provided with copies of contract forms. Thereafter, should RUS promulgate new or revised standard contract form(s), following the procedures discussed below, RUS will revise the list of standard forms as set forth in § 1724.74 or § 1726.304 or both and send the new or revised standard forms to all affected borrowers by regular or electronic mail. Borrowers, as well as the public, can obtain copies of all standard contract forms from RUS or GPO.

In addition to identifying standard forms and eliminating full publication of the text of each standard contract form in the CFR, RUS will clarify the procedures that will be followed when RUS promulgates a new or revised standard contract form. To the extent that RUS is required by section 553 of the APA (5 U.S.C. 553) or otherwise to provide notice in the FR and an opportunity for public comment in promulgating standard contract forms, RUS will publish a FR notice of rulemaking announcing, as appropriate, a revision in, or a proposal to revise the

list of standard contract forms set forth in sections 1724.74 or 1726.304 or both. The revision may change the existing list by, for example, identifying a new required contract form or changing the issuance date of a listed form. The supplementary information section of the FR notice will describe the substantive change in the identified standard contract form and may append the standard contract form or relevant portions thereof. As appropriate, the notice will provide an opportunity for interested persons to provide comments. A copy of each such **Federal Register** notice will be sent by regular or electronic mail to all borrowers.

Finally, this final rule clarifies certain aspects of the requirement that borrowers use RUS standard forms of contract. Absent a waiver by RUS, borrowers are required to use those standard forms in effect as of the date the borrower issues bid package to bidders. Borrowers can determine the appropriate standard form based on the issuance date of the form as identified by the most recently published list set forth in § 1724.74 and § 1726.304. RUS may waive for good cause, on a case by case basis, the requirement to use RUS standard forms of contracts pursuant to procedures set forth in the regulation. A failure on the part of the borrower to use standard forms of contracts as prescribed in parts 1724 or 1726 is a violation of the terms of its loan agreement with RUS and RUS may exercise any and all remedies available under the terms of the agreement or otherwise. Consistent with the changes discussed above, RUS is amending those sections of existing regulations that currently set forth the full text of contracts for the purpose of deleting such text. Deletion of the full text from the CFR will not affect the requirement that borrowers use the prescribed forms of contracts. The rule also relocates and makes minor revisions to information regarding contractors bonds and interest on overdue accounts.

The standard loan agreement between RUS and its borrowers provides that, in accordance with applicable RUS regulations in this chapter, the borrower shall use standard forms of contracts promulgated by RUS for construction, procurement, engineering services, and architectural services financed by a loan made or guaranteed by RUS. This part implements these provisions of the RUS loan agreement. Subparts A through E of this part prescribe when and how borrowers are required to use RUS standard forms of contracts for engineering and architectural services. Subpart F of this part prescribes the procedures that RUS follows in promulgating standard contract forms and identifies those contract forms that borrowers are required to use for engineering and architectural services.

4. Section 1724.70 is revised to read as follows:

§ 1724.70 Standard forms of contracts for borrowers.

(a) *General.* The standard loan agreement between RUS and its borrowers provides that, in accordance with applicable RUS regulations in this chapter, the borrower shall use standard forms of contract promulgated by RUS for construction, procurement, engineering services, and architectural services financed by a loan made or guaranteed by RUS. (See section 5.16 of appendix A to subpart C of part 1718 of this chapter.) This subpart prescribes RUS procedures in promulgating electric program standard contract forms

and identifies those forms that borrowers are required to use.

(b) *Contract forms.* RUS promulgates standard contract forms, identified in the List of Required Contract Forms, § 1724.74(c), that borrowers are required to use in accordance with the provisions of this part. In addition, RUS promulgates standard contract forms identified in the List of Guidance Contract Forms contained in § 1724.74(c) that the borrowers may but are not required to use in the planning, design, and construction of their electric systems. Borrowers are not required to use these guidance contract forms in the absence of an agreement to do so.

5. Section 1724.71 is revised to read as follows:

§ 1724.71 Borrower contractual obligations.

(a) *Loan agreement.* As a condition of a loan or loan guarantee under the RE Act, borrowers are normally required to enter into RUS loan agreements pursuant to which the borrower agrees to use RUS standard forms of contracts for construction, procurement, engineering services and architectural services financed in whole or in part by the RUS loan. Normally, this obligation is contained in section 5.16 of the loan contract. To comply with the provisions of the loan agreements as implemented by this part, borrowers must use those forms of contract (hereinafter sometimes called "listed contract forms") identified in the List of Required Standard Contract Forms contained in § 1724.74(c).

(b) *Compliance.* If a borrower is required by this part to use a listed contract form, the borrower shall use the listed contract form in the format available from RUS. The forms shall not be retyped, changed, modified, or altered in any manner not specifically authorized in this part or approved by RUS in writing. Any modifications approved by RUS must be clearly shown so as to indicate the difference from the listed contract form. Electronic reproduction is not acceptable.

(c) *Amendment.* Where a borrower has entered into a contract in the form required by this part, no change may be made in the terms of the contract, by amendment, waiver or otherwise, without the prior written approval of RUS.

(d) *Waiver.* RUS may waive for good cause, on a case by case basis, the requirements imposed on a borrower pursuant to this part. Borrowers seeking a waiver by RUS must provide RUS with a written request explaining the need for the waiver.

(e) *Violations.* A failure on the part of the borrower to use listed contracts as prescribed in this part is a violation of the terms of its loan agreement with RUS and RUS may exercise any and all remedies available under the terms of the agreement or otherwise.

6. Section 1724.72 is added to read as follows:

§ 1724.72 Notice and publication of listed contract forms.

(a) *Notice.* Upon initially entering into a loan agreement with RUS, borrowers will be provided with all listed contract forms. Thereafter, new or revised listed contract forms promulgated by RUS, including RUS approved exceptions and alternatives, will be sent by regular or electronic mail to the address of the borrower as identified in its loan agreement with RUS.

In so doing, RUS shall publish notice of rulemaking in the **Federal Register** announcing, as appropriate, a revision in, or a proposal to amend § 1724.74, List of Electric Program Standard Contract Forms. The amendment may change the existing identification of a listed contract form; for example, changing the issuance date of a listed contract form or by identifying a new required contract form. The notice of rulemaking will describe the new standard contract form or the substantive change in the listed contract form, as the case may be, and the issues involved. The standard contract form or relevant portions thereof may be appended to the supplementary information section of the notice of rulemaking. As appropriate, the notice of rulemaking shall provide an opportunity for interested persons to provide comments. BILLING CODE 3410-15-P

DEPARTMENT OF ENERGY

10 CFR Part 1003

RIN 1901-AA55

Amendments to Office Of Hearings and Appeals Procedural Regulations

AGENCY: Office of Hearings and Appeals, DOE.

ACTION: Final rule.

SUMMARY: The Department of Energy (DOE) adopts several minor technical amendments to its procedural regulations governing most proceedings before the Office of Hearings and Appeals (OHA), a quasi-judicial branch of the DOE, pertaining to matters within the jurisdiction of that Office. These amendments adjust OHA's procedural regulations to reflect the physical relocation of its public reference room and a change of the public reference room's business hours. In addition, these regulatory amendments implement OHA's new policy of publishing certain information on its Internet World Wide Web site rather than publishing that information in the **Federal Register**.

DATES: This rule is effective November 30, 1998.

FOR FURTHER INFORMATION CONTACT: Steven L. Fine, Attorney-Examiner, or Robert B. Palmer, Attorney-Examiner, Office of Hearings and Appeals, U.S. Department of Energy 1000, Independence Avenue, SW., Washington, DC 20585-0107, Telephone: (202) 426-1449, Internet: steven.fine@hq.doe.gov and robert.palmer@hq.doe.gov.

SUPPLEMENTARY INFORMATION:

I. Discussion

These regulatory amendments result from OHA's continuing reinvention efforts. In order to serve the public more efficiently, the OHA has consolidated all of its operations in one work space. Previously, OHA's operations were conducted at three locations in two separate buildings. This consolidation

has required the relocation of OHA's Public Reference Room from the Forrestal Building, 1000 Independence Ave., S.W., Washington, D.C., to 950 L'Enfant Plaza, Washington, D.C. In addition, OHA has determined that significant cost savings could be achieved by discontinuing OHA's current practice of publishing certain information in the **Federal Register**.

Instead, OHA will publish this information on its Internet web site at www.oha.doe.gov. By placing this information on the Internet, OHA will be making it more accessible to the majority of Americans, while conserving economic and natural resources. These rules are merely technical in nature and do not effect any substantive changes in the existing regulations.

II. Procedural Requirements

A. Executive Order 12866

Today's regulatory action has been determined not to be a "significant regulatory action" under Executive Order 12866, "Regulatory Planning and Review" (58 FR 51735, October 4, 1993). Accordingly, today's action was not subject to review under the Executive Order by the Office of Information and Regulatory Affairs.

B. Executive Order 12612

Executive Order 12612 requires that regulations or rules be reviewed for direct effects on States, on the relationship between the national government and the States, or in the distribution of power among various levels of government. If there are sufficient substantial direct effects, then Executive Order 12612 requires preparation of a federalism assessment to be used in all decisions involved in promulgating or implementing a regulation or rule. Today's regulations do not affect any traditional State function. There are therefore no substantial direct effects requiring evaluation or assessment under Executive Order 12612.

C. Regulatory Flexibility Analysis

With regard to regulations for which a general notice of proposed rulemaking is required by law, the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) requires preparation of a regulatory flexibility analysis unless the issuing agency certifies that the regulations will not have a significant economic impact on a substantial number of small entities. This action only effects minor technical changes in existing procedural regulations, and under the Administrative Procedure Act, such regulations are excepted from the
