

## SCHEDULE B

# STATISTICAL CLASSIFICATION OF DOMESTIC AND FOREIGN COMMODITIES EXPORTED FROM THE UNITED STATES

## GROUP - 8 CHEMICALS AND RELATED PRODUCTS (1946 EDITION)

### PART II - NUMBERED CLASSIFICATIONS AND ARTICLES INCLUDED

This Part II of Schedule B, Group 8, 1946 edition, covering chemicals and related products, is constructed in the same manner as Part II of the 1945 edition of Schedule B and supersedes Group 8 of that edition for interpreting United States export statistics on chemicals and related products.

The 1945 edition of Schedule B, Part II remains in effect for all commodities other than those in Group 8, "Chemicals and Related Products." Minor changes in the 1945 edition of Schedule B have been announced by public bulletins.

For complete information on Schedule B, see pages III - XVIII of the 1945 edition.

JANUARY 1, 1946, EDITION

This Schedule Supersedes January 1, 1945 Issue for  
Interpreting Statistics on Chemicals and Related Products

PREPARED UNDER THE SUPERVISION OF  
J. EDWARD ELY  
*Chief, Foreign Trade Division*  
Bureau of the Census

Free upon request from the Bureau of the Census, Department of Commerce, Washington 25, D. C.

# Bureau of the Census

**J. C. CAPT**, Director

**PHILIP M. HAUSER**, *Assistant Director*

**MORRIS H. HANSEN**, *Statistical Assistant to the Director*

**RALPH E. GALLOWAY**, *Executive Assistant to the Director*

## Foreign Trade Division

**J. EDWARD ELY**, *Chief*

**IRVING WEISS**, *Assistant Chief*

Classifications and Codes - Frederick W. Harrison  
Export and Shipping Statistics - William C. Flaherty  
Export and Lend-Lease Statistics - Milton Kaufman  
Shipping Statistics - Nathan Habib  
Import Statistics - Frank C. Bauer

INTERPRETATION OF SPECIAL NOTATIONS, ABBREVIATIONS AND SYMBOLS, CODE  
CLASSIFICATION OF ECONOMIC CLASSES AND UNITS OF QUANTITY, AND INDEX TO  
SUBGROUP CODE DESIGNATIONS USED IN THE 1946 EDITION OF,  
SCHEDULE B, GROUP 8, PART II.

Superior Notations:

1. The letters "a" to "h" following a class number indicate the year in which the class was established, as follows:
 

"a" - 1939 (January 1)	"e" - 1943 (January 1)
"b" - 1940       "	"f" - 1944       "
"c" - 1941       "	"g" - 1945       "
"d" - 1942       "	"h" - 1946       "
2. The numerals 2 to 12 following the superior letters indicate the month of the year in which the change was effective; e.g., a change effective February 1940 would be indicated as "b<sup>2</sup>."
3. The single asterisk (\*) following a class number indicates that this classification was reestablished. The letter and number following the asterisk indicate the year and month, as above.
4. The double asterisk (\*\*) following a class number indicates that this classification was renumbered. The letter and number following the asterisk indicate the year and month, as above.

N.E.S. - "Not Elsewhere Specified":

The abbreviation "n.e.s." following a class description indicates that such a class includes all items covered by the class description which are not specifically mentioned elsewhere.

Numbers in Parentheses:

The number in parentheses following each commodity description designates the economic class number: see "Code Classification of Economic Classes."

CODE CLASSIFICATION OF ECONOMIC CLASSES

<u>Economic Class 1 - Crude Materials, Nonagricultural Schedule B Nos.</u>	<u>Economic Class 7 - Semi- manufactures, Nonagricultural Schedule B Nos.</u>	<u>Economic Class 9 - Finished Manufactures, Nonagricultural Schedule B Nos.</u>
851510-851580	800500-806998    826200-826900	811100-820000    827300-829400
<u>Economic Class 4 - Manufactured Foodstuffs and Beverages, Agricultural Schedule B Nos.</u>	820100-820300    830000-842900	820400-820900    829700-829990

MEDICINAL CHEMICALS FOR PRESCRIPTION USE,  
N.E.S. (AMPOULES INCLUDED)—Cont.

Strychnine sulfate  
Sucrose, medicinal grade  
Sulfarsphenamine  
Sulformethane  
Suramin sodium  
Tannigen  
Tapal  
Terpin hydrate  
Thanalex wafers  
Theamin  
Theobromine and theobromine salts  
and compounds  
Theobromine sodium salicylate  
Theophylline and theophylline  
salts  
Thio-Bismol ampoules  
Thiocol  
Thymol  
Thymol blue  
Thymol iodide  
Tisulina (avertin)  
Tonofosfan (novofosfan)  
Trehalose  
Trinitrine  
Tryparsamide  
Turpentine oil,  
rectified  
Urethane  
Validol  
Vasodilator compound  
Veratrine  
Veronal  
Vioform  
Yatren  
Yohimbine hydrochloride and alkaloid  
powder  
Zinc cyanide  
Zinc phenolsulfonate  
Zinc sulfocarbolate  
Zinc valerate

HOUSEHOLD MEDICINAL CHEMICALS AND  
PHARMACEUTICALS IN SMALL  
PACKAGES:

814100

SOLIDS.....(9) --

Alum  
Alum potash  
Ammonia alum  
Baking soda  
Bicarbonate of soda  
Bocaryl  
Boric acid  
Camphor ice  
Chrome alum  
Citrocarbonate  
Dobell solution tablets  
Epsom salts  
Fuller's earth  
Magnesium stearate  
Peroxide tablets  
Rochelle salts  
Salts  
Sulfur  
Zinc stearate

Milk of bismuth  
Rhubarb and soda  
Rubbing alcohol  
Sweet spirits of nitre  
Tincture of iodine

814800

PROPRIETARY MEDICINAL PREPARATIONS:  
MOUTH WASHES, GARGLES, AND PERSONAL  
ANTISEPTICS.....(9) --

Amosan (oral antiseptic powder)  
Andron prophylactic  
Antipyor  
Astringo-col  
Cepacol  
Cresatin  
Dioxigen  
Glycothymoline  
Hexyl resorcinol  
Lavoris  
Listerine  
Myl-er-ol antiseptic  
S.T. 37 antiseptic solution  
Zonite

814900

CORN AND FOOT REMEDIES.....(9) --

Eluc-Jay corn remedies  
Bunion pads  
Corn pads  
Corn plasters  
Foot-essers, medicinal  
Freezone  
Hctoxin powder  
Myoccol  
Pedi Pads  
Zinc pads

815000<sup>h</sup>

PLASTERS.....(9) --

Adhesive plester, for surgical  
use  
Adhesive tape, for surgical use  
Band-Aid  
Collofuge plasters  
Court-plaster  
Handi-tape bandages  
Medicated tape  
Porous plasters, except  
belladonna  
Quicktape  
Surgical adhesive plasters  
Tape, adhesive, rubber,  
medicated  
Tape bandages  
Tape, rubber, medicated, except  
belladonna  
Zinc oxide adhesive tape

## 824000 WATER SOFTENERS, PURIFIERS, BOILER AND FEED-WATER COMPOUNDS.....(9) Lb.

Algar  
 Ameroid colloids  
 Antiboiler scale preparations  
 Baco-Benet  
 Boiler preservatives  
 Burton salts  
 Clearbrine  
 Clensol purifier bricks  
 Fluff-foe  
 Hagan phosphate  
 Hypro  
 Minpral refinite  
 Nalco (water softener)  
 Permutit  
 Sand banum  
 Tangite XI composition  
 Zeo-Dur filler

## 825000 METALWORKING COMPOUNDS.....(7) Lb.

Aqua-Sol grinding compound  
 Aqua-Sol special  
 Argolene oil  
 Autogenizer  
 Bath carbons, molten metal  
 Brazing compounds  
 Colmonoy, sweat-on paste  
 Coollex powder  
 Core compounds  
 Curbay binder core compounds  
 Cutting compounds, No. 101  
 Cutting compounds  
 Cutting oils  
 Cutting oils, sulfurized  
 Drawing compounds  
 Drawing oil, No. 1  
 Drilling compounds  
 Flash-Ex metal-coating compound  
 Fleetweld number 5 and 7 wet mix  
 Foundrate  
 Foundry core compounds  
 Hardeners  
 Hardening compounds  
 Hardening powder  
 Kasenite  
 Kester metal mender  
 Liquid solder  
 Lubricants, No. 97  
 Lubricants, No. 3B  
 Meltomatic paste solder  
 Metal-cutting compounds  
 Metal-cutting paste  
 Metalene No. 1 (soluble oil base)  
 New Solar Welding Flux No. 16  
 Nokorode soldering paste  
 Non-scratch drawing compounds  
 Nosep lubricants  
 Park Kase, for steel treating  
 Purite  
 Radiator Seal  
 Rejuvenator core compounds  
 Rodine

ORGANIC CHEMICALS NOT OF COAL-TAR  
ORIGIN, N. E. S.—Cont.

Amyl butyrate  
Amyl mercaptan  
Amyl nitrate  
Amyl valerianate  
Anethol oil, natural  
Anethol, synthetic  
Anisic aldehyde  
Argols  
Aromatic compounds, synthetic  
(organic origin)  
Artificial oils (organic origin)  
Artificial perfume (organic origin)  
Balsam, Peru, artificial  
Banana oils  
Bergamot oil, synthetic  
Beta trichloroethane  
Blended oils, perfume-flavor,  
synthetic aromatic compounds  
Bornylacetate  
Butadienes, except polymers and  
copolymers  
Butyl carbitol  
Butyl cellosolve  
Butyl propionate  
Butyl stearate  
Butylene chlorohydrin  
Butyraldehyde  
Butyric ether  
Cadmium acetate  
Calcium acetate  
Calcium formate  
Canaga oil, synthetic  
Carbitol  
Cellosolve acetate  
Cellosolve acetate butyrate  
Cellosolve butyl  
Cellosolve methyl  
Cenantic ether  
Cerium oxalate  
Chlorinated hydrochloric ether  
Chloroacetyl chloride  
Chloroform  
Chloroprene  
Chromium acetate  
Citral  
Citrene oil  
Citronellol  
Cloudinol  
Concentrated heading, for soft drinks  
Crotonaldehyde  
Cyanacetamide  
Cystamin  
Cystogen  
Denaturant  
Deodorant oil  
Developers, acetamine  
Diacetone alcohol  
Diacetyl  
Diatolor diethylcarbonate  
Dichlorethyl ether  
Dichloroethylene  
Diethanolamine  
Diethyl diphenyl urea  
Diethyl ether  
Diethyl sulfate  
Diethylaminoethanol  
Diethylene glycol monoethyl ether  
Diethylethanolamine  
Diglycol stearates

ORGANIC CHEMICALS NOT OF COAL-TAR  
ORIGIN, N. E. S.—Cont.

Dimethyl glyoxime  
Dimethyl sulfate  
Dimethylamine  
Dioxane  
Dipentaerythritol acetate  
Dipentaerythritol hexapropionate  
Dipentaerythritol hexybutyrate  
Eixateur lavande  
Esters  
Estragon (simile pomade tuberose)  
Ethanolamine  
Ethers  
Ethocel  
Ethyl acetoacetate  
Ethyl butyrate  
Ethyl cellulose  
Ethyl chloride  
Ethyl chloroacetate  
Ethyl chlorocarbonate  
Ethyl formate  
Ethyl hydrogen sulfate  
Ethyl lactate  
Ethyl silicate  
Ethyl stearate  
Ethylene chlorohydrin  
Ethylene diamine  
Ethylene dichloride  
Ethylene glycol monobutyl ether  
Ethylene glycol monoethyl ether  
acetate  
Ethylene glycol monoethyl ether  
(cellosolve)  
Ethylene oxide  
Eugenol  
Exaltolide  
Exygenated petroleum fuel  
Feuchone  
Flavor oils, artificial  
(organic origin)  
Flexol plasticizer  
Formaldehyde gas  
Formamide  
Formates  
Formin C. T. tablets  
Formine  
Geraniol  
Geranium oil, synthetic  
Geranylcinamate  
Glyceryl monostearate  
Glycol monoacetate  
Glycol monostearate, diethylene  
Glycol sebacate  
Heliotropine  
Hercolyn (hydrogenated methyl  
abietate)  
Hexachloroethane  
Hexamethylenamine  
Hexamethylenetetramine  
Hexamine  
Hydrochloric ether  
Hydroxycitronellal  
2-Hydroxyethylamine  
Imitation oils (organic origin)  
Indol  
Inulin  
Ionone  
Ionone methyl  
Irisone ketone  
Iron oxalate

Explanation of numbers in parentheses and superior notations appears in foreword.

Aluminum fluophosphate  
Amorphous phosphorous  
Antimonsaure  
Antimony chloride  
Antimony fluoride  
Antimony lactate  
Antimony needles  
Antimony oxides: tri-, tetra-, penta-  
Antimony pentachloride  
Antimony potassium tartrates  
Antimony salts and compounds  
Antimony sulfide  
Antimony trichloride  
(butter of antimony)  
Arsenic bisulfide  
Arsenic chloride  
Arsenic sulfide  
Arsenic trichloride  
Barium carbonate, natural  
Barium chlorate  
Barium chloride  
Barium dioxide  
Barium fluosilicate  
Barium hydrate  
Barium hydroxide  
Barium nitrate  
Barium oxide  
Barium peroxide  
Barium sulfate, except U.S.P. for X-ray diagnosis  
Barium sulfocyanide  
Barium superoxide  
Barium trifluoride  
Bariate (mud-drilling material)  
Battery oxide  
Beryllium carbonate  
Beryllium oxide  
Beryllium salts and compounds  
Bismuth carbonates and mixtures  
Bismuth chlorides  
Bismuth nitrates and mixtures  
Bismuth oxides  
Bismuth oxychloride  
Bismuth saccharates  
Bismuth salicylate  
Bismuth salts and compounds  
Bismuth subnitrate  
Bismuth subsalicylate  
Bismuth sulfates  
Bismuth tetra brom pyrocatechine  
Bismuth trichloride  
Black copper oxide  
Black phosphorous  
Dormangan  
Boron trifluoride  
Butter of arsenic

Explanation of numbers in parentheses and superior notations appears in foreword.

## PIGMENTS, PAINTS, AND VARNISHES — Cont.

NITROCELLULOSE AND OTHER CELLULOSIC LACQUERS:  
843310S PIGMENTED.....(9) Gal.

Airplane dope  
Cellulose coating  
Concentrated lacquer, mixed with other lacquers to obtain iridescent effect  
Decora colors  
Decora relief  
Duco lacquer  
Flame tint lacquer  
Lacquer, gold  
Pearl lacquer, mixed with other lacquers to obtain iridescent effect  
Phenolic resin lacquer  
Positive lacquer  
Primers  
Primers, oil and lacquer base  
Surfacers  
Surfacers, oil and lacquer base

843410S CLEAR.....(9) Gal.

Airplane dope  
Carbraxturco  
Cellulose coating  
Decora colors  
Duco lacquer  
Ethyl cellulose lacquer  
Hat size  
Nitrate dope  
Phenolic resin lacquer

843510S THINNERS FOR NITROCELLULOSE AND OTHER CELLULOSIC LACQUERS.....(9) Gal.

843800\*8 READY-MIXED PAINTS, STAINS, AND ENAMELS....(9) Gal.

Aluminum enamels (powder and oil separate)  
Aluminum paints (powder and oil separate)  
Bronze paints  
Deck paints  
Duco enamel  
Enamels, ready-mixed, containing mesothorium  
Enamels, ready-mixed, containing radium in any form  
Engine enamels  
Flat paints  
Floor primers, except nitro-cellulose and biturine enamel  
Formvar enamel  
Gilding liquids  
Gold enamels (powder and oil separate)  
Insulating paints  
Konkrex (concrete floor paint)  
Lead paints, metallic  
Lumilac enamel  
Malabar (ready mixed paint)  
Oil paints  
Paint kits  
Paints, ready-mixed, containing mesothorium  
Paints, ready-mixed, containing radium in any form  
Radium paints, for watch dials  
Rapid-repair paint  
Roc cask tank enamel

## PIGMENTS, PAINTS, AND VARNISHES — Cont.

843800\*8 READY-MIXED PAINTS, STAINS, AND ENAMELS—Cont.

Rubber paints  
Silver-cool (aluminum paint)  
Smokestack paints, locomotive  
Stains, ready-mixed, containing mesothorium  
Stains, ready-mixed, containing radium in any form  
Stove finish, satin black  
Structural paints, graphite  
Synthetic enamels  
Tire paints  
Touch-up enamel  
Varnish paints  
Varnish stains  
Venetian blind enamels  
Wall primers, except cellulosic lacquers and biturine enamel  
Wood fillers, liquid  
Wood stains, liquid

844210S VARNISHES (OIL OR SPIRIT), NATURAL OR SYNTHETIC.....(9) Gal.

Bakelite varnish  
Baking varnish, clear  
Beeswax driers  
Flattening oil (drier)  
Gold size varnish  
Hi Gloss overprint varnish  
Hercolac  
Ink varnish, printing  
Insulating varnish  
Japan varnish  
Liquid driers (varnish)  
Lithcote varnish  
Metallico, Japanese  
Nu-Rex, a refinisher form of varnish  
Process color wax  
Shellac, in liquid form  
Spar varnish  
Stiff white water (water solution of shellac)

## FERTILIZERS AND FERTILIZER MATERIALS

NITROGENOUS FERTILIZER MATERIALS:  
NITROGENOUS CHEMICAL MATERIALS:

850500 AMMONIUM SULFATE.....(7) lb.

Ferrous ammonium sulfate

850700\*\*h SODIUM NITRATE, N.E.S.....(7) lb.

Sodium nitrate, except President's proclamation of May 1, 1937

850900\*h NITROGENOUS CHEMICAL MATERIALS, N.E.S.(7) lb.

Ammoniating solution  
Ammonium chloride and nitrate, as fertilizer material  
Calcium cyanamide  
Calcium nitrate  
Calcium urear  
Caloria  
Lime nitrate  
Lime-nitrogen  
Urea-ammonia liquor  
Urea-ammoniating solution  
Urea, except resin and industrial

Explanation of numbers in parentheses and superior notations appears in foreword

Sintered matrix  
Soft phosphate rock

851580<sup>c</sup> TENNESSEE, IDAHO, AND MONTANA  
ROCK.....(1) L. ton

851901<sup>E</sup> NORMAL (STANDARD) SUPERPHOSPHATE, CONTAINING  
NOT MORE THAN 25 PER CENT AVAILABLE PHOSPHORIC  
ACID (P<sub>2</sub>O<sub>5</sub>).....(7) Lb.

Acidulated phosphate rock  
Phosphate rock, dissolved

851909<sup>E</sup> CONCENTRATED SUPERPHOSPHATE, CONTAINING MORE  
THAN 25 PER CENT AVAILABLE PHOSPHORIC  
ACID (P<sub>2</sub>O<sub>5</sub>).....(7) Lb.

Double superphosphate  
Treble superphosphate  
Triple superphosphate

852000 OTHER PHOSPHATE MATERIALS.....(7) Lb.

Animal carbon  
Bone ash dust  
Bone ash meal  
Char dust  
Duplex basic phosphate  
South Carolina river rock

## POTASSIC FERTILIZER MATERIALS:

853000\*\*h POTASSIUM CHLORIDE.....(7) Lb.

Potassium muriate

853100\*h POTASSIC FERTILIZER MATERIALS, N.E.S....(7) Lb.

Cottonseed hull ash  
Kainite  
Manure salts  
Potassium sulfate  
Vegetable potash  
Wood ashes

## FERTILIZERS AND FERTILIZER MATERIALS - Cont.

854000 NITROGENOUS PHOSPHATIC TYPES, CONCENTRATED  
CHEMICAL FERTILIZERS.....(9) Lb.

Ammonium phosphate  
Leunaphos

855100\*E PREPARED FERTILIZER MIXTURES.....(9) Lb.

Cipps plant food  
Nitrophaska fertilizer  
Plant foods  
Sutton's simplex fertilizer  
Terogen  
Vigoro

## EXPLOSIVES, FUSES, AND BLASTING CAPS

860100\*<sup>h</sup> EXPLOSIVES:

SMOKELESS POWDER.....(9) Lb.

Cordite MD

860400 DYNAMITE.....(9) Lb.

860900\*<sup>h</sup> OTHER EXPLOSIVES.....(9) Lb.

Amatol  
Ammonal  
Ammonium picrate  
Amonite  
Black hunting powder  
Black soda powder (President's  
Proclamation of May 1, 1937)  
Blasting gelatin  
Commercial explosives  
Dry binitrotoluol (dinitrotoluene)  
Dynamite gelatin  
Ethyl centralite  
Explosives enumerated in category VII  
of President's Proclamation of May 1,  
1937  
Gelignite  
Hexanitrodiphenylamine  
Hexanitromannitol  
Hexogen  
Lead azide  
Methyl centralite  
Methyltrinitrobenzene  
Nitrocellulose having a nitrogen  
content of more than 12 per cent  
(President's Proclamation of May 1,  
1937)  
Nitroglycerin  
Nitroguanidine  
Nitromannite  
Nitrostarch  
Oil well explosives  
Pentolite  
Rackorock  
Saluting powder, black  
Schneiderite  
Sodium azide  
Sodium nitrate (President's Proclamation  
of May 1, 1937)  
Sporting powder  
Tetranitromethylaniline (Tetryl)  
Tetryl  
Trimethylenetrinitramine (Hexogen)  
Trinitroanisol  
Trinitronaphthalene

Explanation of numbers in parentheses and superior notations appears in foreword

January 4, 1946.

Memorandum to Miss Hatchford

Subject: 1946 procedures for shipments under Schedule B No. 999910

Effective with January 1946 accounts, the following changes will become effective for items shown under Schedule B number 999910:

1. B number 999910 will include all shipments valued under \$25 including (a) shipments by all methods of transportation including air, (b) shipments under the UMRA program (c) shipments under the Lend-Lease programs but excluding all shipments requiring specific export control licenses (License code 02) by all methods of transportation. The appropriate definitive B numbers will be used for shipments requiring specific export control licenses.

2. For all shipments valued under \$25 except shipments by air Schedule D code 70 will be used as the Customs District of exportation.

3. For all shipments under \$25 excluding shipments by air, the "all other" method of transportation code (Schedule N code 9) will be used.

The various operation units will be affected by the above decisions as follows:

A. New York Document Control

- (a) A 4 and A 5 documents will include only documents having items value between \$25 and \$100.
- (b) Ingrouping the A-1-999910 documents, except for shipments by air (District 70 and Method of Transportation Schedule N Code 9), will be used. For shipments by air, the specific district and port code will be used, i.e. Buffalo, 09-01, N. Y.; N. Y. 10-01, etc., with Method of Transportation Schedule N Codes 2 & 3 (the air codes). (The air shipments can be included in the regular coding operation if there are not sufficient declarations to warrant the use of the A-1 document control procedure).

B. New York Coding Unit

On multiple item declarations containing any item valued \$100 and over, the commodity coder will use 999910 for items valued under \$25. The district and port code and the method of transportation code on these 999910 items will be the same as the \$25 and over items appearing on the declaration. This will be adjusted to (a) District 70 and (b) Transportation Code 9 for shipments other than by air in the EM 21 procedure.

C. Washington Document Control and Coding Units

Follow procedure shown for New York Document Control and Coding Units.

Memorandum to Miss Ratchford  
January 4, 1946

D. Washington Balancing Unit

When EM 21 is received all 999910 items should be changed to District 70, except for shipments by air. It will be necessary to prepare a special EM 21 for Schedule B number 999910 separating "air" shipments from "all other method of transportation" for this purpose.

E. Shipping Statistics Unit

Before vessel detail cards are reproduced, all 999910 items should be excluded and not shown in the Maritime Commission monthly, quarterly and annual tables. In all non-air tables used for the Volume II of the 1946 Foreign Commerce and Navigation, all non-air 999910 shipment items should be included in the "all other" method of transportation.

All written procedures should be changed accordingly.

  
Irving Weiss, Assistant Chief  
Foreign Trade Division

December 30, 1946

RAISING THE DOLLAR VALUE LIMIT OF SCHEDULE B  
COMMODITY NUMBER 999910 FROM \$25 TO \$50

EFFECTIVE JANUARY 1, 1947

The value limit in Schedule B commodity number 999910 "General Merchandise Valued at less than \$25" will be raised from \$25 to \$50 in the export statistics effective with the January 1947 accounts. The statistics starting in January will therefore not include in Schedule B commodity numbers, other than 999910, any information on individual shipments showing a dollar value less than \$50. A discussion of this change was presented in the December 1946 issue of Foreign Trade Statistics Notes. Commodity information on shipments between \$25 and \$50 will continue to be obtained from exporters on the Shipper's Export Declarations in order that the effects of this change on the statistics can be determined. Collectors of Customs will therefore continue to require complete description of the merchandise exported on the Shipper's Export Declaration even though the value of such merchandise is under \$50.

The following change should be carried into Schedule B, Part II, page 295.

R E A D S

S H O U L D R E A D

<u>Commodity Number</u>	<u>Commodity Description</u>	<u>Commodity Number</u>	<u>Commodity Description</u>
999910	GENERAL MERCHANDISE VALUED AT LESS THAN \$25 <sup>1/</sup> THIS COMMODITY NUMBER IS APPLIED TO: (a) ALL SINGLE ITEMS OF SCHEDULE B COMMODITIES VALUED AT LESS THAN \$25 (b) ALL TOTALS OF SCHEDULE B COMMODITIES, SINGLE ITEMS OF WHICH ARE VALUED AT LESS THAN \$25 INCLUDING SHIPMENTS TO POSTMASTERS OR OTHER AGENTS FOR DISTRIBUTION AT DESTINATION	999910	GENERAL MERCHANDISE VALUED AT LESS THAN \$50 THIS COMMODITY NUMBER IS APPLIED TO: (a) ALL SINGLE ITEMS OF SCHEDULE B COMMODITIES VALUED AT LESS THAN \$50 (b) ALL TOTALS OF SCHEDULE B COMMODITIES, SINGLE ITEMS OF WHICH ARE VALUED AT LESS THAN \$50 INCLUDING SHIPMENTS TO POSTMASTERS OR OTHER AGENTS FOR DISTRIBUTION AT DESTINATION

Since shippers will continue to report merchandise valued less than \$50 in the detail of Schedule B commodity numbers, other than 999910, no change in Part I of Schedule B (Alphabetic Index) is necessary.

<sup>1/</sup> Changed by Public Bulletin 73B-II from "\$10 or less" to "less than \$25" effective January 1, 1946.

RAISING THE DOLLAR VALUE LIMIT OF SCHEDULE B  
COMMODITY NUMBER 999910 FROM \$50 TO \$100

EFFECTIVE JULY 1, 1948

The value limit in Schedule B commodity number 999910, "General merchandise valued at less than \$50," will be raised from \$50 to \$100 in the export statistics, effective with the July 1948 statistics. The statistics starting in July 1948 will, therefore, not include in Schedule B commodity numbers, other than 999910, any information on individual shipments showing a dollar value less than \$100. A discussion of this change was presented in the June 1948 issue of Foreign Trade Statistics Notes. Commodity information on shipments between \$24 and \$100 will continue to be obtained from exporters on the Shipper's Export Declarations in order that the effects of this change on the statistics can be determined. Collectors of Customs will, therefore, continue to require complete description of the merchandise exported on the Shipper's Export Declaration if the value of such merchandise is \$25 or over, even though commodity detail will not be shown in statistics for items valued less than \$100.

The following change should be carried into Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States, Part II, Numbered Classifications and Articles Included, page 295.
