One Meal - Or Four - For 10c.

Ten cents worth of potatoes is hardly enough for one meal.

Ten cents worth of rice will serve from four to six meals.

Rice is one of the few foods you do not have to pay more for. At no time since the Civil War have we paid such high prices for bread, milk, meat and especially for potatoes. And rice is four times as nourishing as potatoes! One pound of rice contains as much nourishment as four and a half pounds of potatoes!

More Than 1400 Varieties

All rice is not alike. There is more difference than you realize. There are over 1400 varieties! In size, in flavor, in quality they differ.

Comet is long grain rice, the grain that rice experts and dietitians recognize as the highest quality rice possible to obtain.

It is not easy for the average person to tell long grain rice.

Buy your rice by name and be sure. Ask for Comet, the finest long grain rice produced—the very cream of the rice crop. You notice at once how perfectly this long grain rice cooks, how much more delicious it is, with every flaky grain distinct

With Comet you will get a new idea of how good rice can be! Try Comet Natural Brown (unpolished) Rice. Something

Of the 1,400 Varities of Rice Grown You Will Like Comet Best.

10c and 5c packages

Round grain rice loses its shape in cooking—makes a mushy, pasty rice. Long grain rice—Comet Rice—gives you flaky rice—every grain distinct and separate.
