FE DOCKET NO. 02-90-NG

ORDER GRANTING BLANKET AUTHORIZATION
TO IMPORT AND EXPORT NATURAL GAS
FROM AND TO CANADA

DOE/FE ORDER NO. 1836

DECEMBER 10, 2002

I. DESCRIPTION OF REQUEST

On December 2, 2002, Northern Utilities, Inc. (Northern Utilities) filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE), under section 3 of the Natural Gas Act (NGA),^{1/} for authorization to import and export up to a combined total of 3 Bcf of natural gas from and to Canada, over a two-year term beginning on January 15, 2003, and extending through January 14, 2005. Northern Utilities is a New Hampshire corporation with its principal place of business in Westborough, Massachusetts. Northern Utilities, a natural gas distributor, will import and export the natural gas on its own behalf or as an agent for others. The proposed authorization does not involve the construction of new pipeline facilities.

II. FINDING

The application filed by Northern Utilities has been evaluated to determine if the proposed import and export arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import or export of natural gas from or to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas, is deemed to be consistent with the public interest and must be granted without modification or delay. The authorization sought by Northern Utilities to import and export natural gas from and to Canada, a nation with which a free trade agreement is in effect, meets the section 3(c) criterion and, therefore, is consistent with the public interest.

^{1/} 15 U.S.C. § 717b. This authority is delegated to the Assistant Secretary for Fossil Energy pursuant to Redlegation Order No. 00-002.4 (January 8, 2002).

B. This natural gas may be imported and exported at any point on the border between the United States and Canada.

C. With respect to the natural gas imports and exports authorized by this Order, Northern Utilities shall file with the Office of Natural Gas & Petroleum Import & Export Activities, within 30 days following each calendar quarter, reports indicating whether imports or exports of natural gas have been made. Quarterly reports must be filed whether or not initial deliveries have begun. are being made on an interruptible or firm basis; and if applicable, (2) the per unit (MMBtu) demand/commodity/reservation charge breakdowns of the contract price.

[OMB No.: 1901-0294]
