S. 1869

Coastal Barrier Resources Reauthorization Act of 2005

*As ordered reported by the Senate Committee on Environment and Public Works
on October 26, 2005*

SUMMARY

S. 1869 would authorize appropriations for the U.S. Fish and Wildlife Service (USFWS) to carry out the coastal barrier resources program. Assuming appropriation of the amounts authorized by the bill, CBO estimates that the USFWS would spend \$16 million over the 2006-2010 period. Enacting S. 1869 would not affect direct spending or revenues.

The bill contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act (UMRA) and would impose no costs on state, local, or tribal governments.

ESTIMATED COST TO THE FEDERAL GOVERNMENT

S. 1869 would authorize the appropriation of \$2 million for each of fiscal years 2006 through 2010 to the USFWS for mapping the coastal barrier resources system. (Authorizations for the program expired at the end of fiscal year 2005.) The bill also would authorize appropriations of \$500,000 a year for 2006 and 2007 to complete an existing pilot project on digital mapping and \$1 million a year through 2010 to create digital versions of all maps of the coastal barrier system.

The estimated budgetary impact of S. 1869 is shown in the following table. The costs of this legislation fall within budget function 300 (natural resources and environment). For this estimate, CBO assumes that the entire amounts authorized by the bill will be appropriated for each fiscal year. Estimated outlays are based on historical spending patterns for this program.
