

production of softwood lumber by Tembec Inc. according to parent company consolidated financial statements is reasonable and lawful consistent with the agency's obligation, set out at 19 U.S.C. 1677b(b)(3)(B), to calculate such expenses "based on actual data pertaining to production and sales of the foreign like product";

8. To explain why Commerce's final determination concerning Tembec's credit expenses does not contain a clerical error with respect to programming language used to make currency conversions; or, if the final determination does contain such an error, to identify and correct the error;

9. To explain why Commerce's decision to use Tembec's internal prices for wood chips was representative of the cost of producing such wood chips, and why such prices constituted a reasonable and permissible basis for calculating an offset to Tembec's production costs;

10. To consider the claims of West Fraser Mills that Commerce erred in adjusting the offset to production costs resulting from West Fraser's by-product sales of wood chips to unaffiliated purchasers in British Columbia during the period of investigation, and particularly, to consider whether the timing of West Fraser's wood chip sales to unaffiliated parties during the early part of the period of investigation, and the existence of a long term contract, cause those sales to be not fairly representative of West Fraser's wood chip prices during the POI;

11. To provide a complete explanation of Commerce's decision that finger-jointed flangestock (FJF) does not constitute a separate "class or kind" of merchandise for purposes of this investigation; and in so doing, to explain how the agency applied each of the Diversified Products factors to its consideration of FJF, the determinations reached with respect to each such factor, and how the agency weighed these factors in reaching its determination; and

12. To provide a complete explanation of Commerce's determination not to treat square-end bed frame components as a separate "class or kind" of merchandise for purposes of this investigation; and in so doing, to explain how the agency applied each of the Diversified Products factors to its consideration of square-end bed frame components, and how the agency weighed these factors in reaching its determination; and

13. To publish revised less than fair value (LTFV) margins for the investigated Respondents, including a revised "all others" rate, as determined

after carrying out the above remand instructions.

Commerce was directed to issue its determination on remand within 60 days of the issuance of the decision or not later than September 15, 2003.
