b Not separately returned in 1820.

TABLE 8.—POPULATION OF CITIES, TOWNS, VILLAGES, AND BOROUGHES HAVING 1,000 INHABITANTS OR MORE IN 1890, WITH POPULATION FOR 1880.

[This table gives the population of all places, incorporated and unincorporated, in the United States having 1,000 inhabitants or more, so far as they have been returned by the census enumerators separate from the population of the township, precinct, district, etc., of which they form a part. In the New England states the population of towns having 1,000 inhabitants or more has been used, except in Connecticut, where, in the case of cities or boroughs having 8,000 inhabitants or more which have been separately returned, the population of the city or borough, and not that of the town, is given.]
