

Table A-5. The Population 14 to 24 Years Old by High School Graduate Status, College Enrollment, Attainment, Sex, Race, and Hispanic Origin: October 1967 to 2002

(Numbers in thousands. Civilian noninstitutional population)

Year, race, and Hispanic origin	Total	Population 18 to 24 years old							High school graduates, 14 to 24 years old		
		High school graduates		Percent			High school dropouts		All graduates	Percent	
		Total	Enrolled in college	High school graduates	Enrolled in college	Of high school graduate enrolled in college	Number	Percent		Enrolled in college	Enrolled or completed some college

All races

Both Sexes

r = Revised, controlled to 1990 census based population estimates; previous 1993 data controlled to 1980 census based population estimates.

Note: The change in the educational attainment question and the college completion categories from "4 or more years of college, to "at least some college," in 1992 caused an increase in the proportion of 14-to-24-year-old high school graduates enrolled in college or completed some college, of approximately 5 percentage points.

High school graduates are people who have completed 4 years of high school or more, for 1967 to 1991. Beginning in 1992, they were people whose highest degree was a high school diploma (including equivalency) or higher.

Hispanics may be of any race.
