AIR AND RADIATION

June 26, 2001

Dear Manufacturer: (CCD-01-11) HDDE, HDGE, NRCI, NRSI, MSI, IMO, LOCO

Subject: New Manufacturer Assignments

The purpose of this letter is to notify all engine manufacturers who will apply for certificates of conformity with the EPA that a recent reorganization of the Engine Compliance Team in our Engine Programs Group has occurred. The Engine Compliance Team is currently composed of six EPA staff members and two senior aides. The seniors perform the first stage review for all applications, primarily for clerical issues. The following pages list the specific manufacturers assigned to each staff member. To minimize delays in processing engine certification applications, please contact the staff member that is assigned to your company. The senior aides may be contacted for general questions regarding issues with application forms and fees.

The turnaround time for an engine application to be processed and a certificate produced is approximately thirty (30) days, if there are no outstanding issues that may delay certification. Outstanding issues that may delay certification typically involve manufacturers providing incomplete information regarding issues such as consent decree requirements, and deterioration factor (DF) requirements. Also, application forms are often not filled out properly. The Engine Compliance Team reviews approximately 2000 applications per year, most of which are reviewed during October to December. During these months, the turnaround time for certification may be somewhat longer than thirty (30) days. We encourage you to review your application for accuracy and completeness to minimize delays, particularly if you intend to obtain certification during our busy period. We encourage you to send in your applications as early as possible.

If you need to inquire as to the status of an engine certificate, please call the appropriate compliance team member. If he or she is unavailable, please contact Greg Orehowsky (Team Leader). You may also contact John Guy (Engine Programs Group Manager) at 202-564-9276 or via email guy.john@epa.gov.

Enclosure 1 lists the Compliance Team Member contact information and Enclosure 2 lists the manufacturer assignments in alphabetical order by manufacturer name.

Sincerely,

Gregory A. Green, Director
Certification and Compliance Division
Office of Transportation and Air Quality

Enclosures (2)

Enclosure (1): Compliance Team Member Contact Information:

CI = Compression Ignition (Diesel) Engine; SI = Spark Ignited Engine

Name	Phone	e-mail address	Fax

Enclosure (2): Manufacturer Assignments in Alphabetical Order by Manufacturer Name

Manufacturer	Certification Representative
Acme	Bill Rutledge
Alaska Diesel	Greg Orehowsky
Allied International Tractor	Greg Orehowsky
Alternative Fuels Technology	Greg Orehowsky
Alto	Yanira Reyes-Morales
AM General	Han Lim
American Jawa	Bill Rutledge
AMW	Greg Orehowsky
Atlantis Diesel	Bill Rutledge
Atlas Copco	Han Lim
Atlas Machinery	Greg Orehowsky
Aztec products	Bill Rutledge
Bachman NGV	Han Lim
Baytech	Han Lim
Bi Phase	Han Lim
Bombardier	Yanira Reyes-Morales
Briggs and Stratton	Bill Rutledge
Case	Greg Orehowsky
Caterpillar	Han Lim
CSX	Bill Rutledge
Cummins	Greg Orehowsky
Daedong	Greg Orehowsky
Daewoo	Joe Hresko
DAF Trucks	Joe Hresko
Daihatsu	Greg Orehowsky
Daihatsu Industrial Engine	Greg Orehowsky
Daimler Chrysler	Rick Gezelle
Deere (CI)	Joe Hresko
Deere (SI)	Joe Hresko
Detroit Diesel	Rick Gezelle
Deutz Corporation	Greg Orehowsky
Eagle Floor Care	Bill Rutledge
Eicher	Yanira Reyes-Morales
Emak	Bill Rutledge
Environmental Device Company	Bill Rutledge
Environmental Systems	Greg Orehowsky
Escorts Limited	Joe Hresko
Farymann Diesel GMBH	Han Lim
Flex	Greg Orehowsky
Ford	Joe Hresko
Fuji Heavy (CI)	Bill Rutledge
Fuji Heavy (SI)	Bill Rutledge
Fuji Robin	Greg Orehowsky

Manufacturer	Certification Representative
