NOTICE OF PROPOSED RULE MAKING

Adopted: August 29, 2001 ; Released: September 7, 2001

Comment Date: October 29, 2001
Reply Comment Date: November 13, 2001

By the Chief, Allocations, Branch

1. The Allocations Branch has before it a petition for rule making petition filed by WYCQ, Inc. (“petitioner”), licensee of Station WZPC(FM), Shelbyville, Tennessee, proposing the reallocation of Channel 275C1 from Shelbyville to LaVergne, Tennessee, and the modification of Station WZPC(FM)’s license accordingly. Petitioner states its intention to apply for the channel, if reallocated to La Vergne.

2. The proposal was filed pursuant to Section 1.420(i) of the Commission's Rules which permits the modification of a station’s authorization to specify a new community of license without affording other interested parties an opportunity to file competing expressions of interest. See Modification of FM and TV Authorizations to Specify a New Community of License, 4 FCC Rcd 4870 (1989), recon. granted in part, 5 FCC Rcd 7094 (1990). In support of its proposal, petitioner states that La Vergne is an incorporated city with a population of 18,687 persons.¹ La Vergne is self-governing with its own Mayor, Vice Mayor, Aldermen, City Administrator, Police Department, Fire Department, Public Works Department, City Recorder, Tax Collector, Library Director, Finance Department, and Department of Planning and Codes. There are also three elementary schools, one middle school, one senior high school, numerous churches, organizations, and businesses. Since the 70 dBu signal of WZPC(FM) at La Vergne, Tennessee encompasses

¹ All population figures are taken from the 2000 U.S. Census.

66.5% of the Nashville Urbanized Area, petitioner has provided the required Tuck analysis.² Petitioner proposes no change in the transmitter site for the reallocation of Channel 275C1 to La Vergne, therefore, no gain and loss area study is required. Petitioner asserts that the reallocation would result in a preferential arrangement of allotments pursuant to Revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1982).³ Petitioner states that the reallocation would provide La Vergne with its first local aural transmission service without depriving Shelbyville (population 16,105) of its sole local service, whereas Stations WBIA(NCE-FM), WLIJ(AM) and WZNG(AM) would remain licensed to the community.

3. The Commission now allows a station to change its community of license despite the presence of pre-1964 and pre-1989 “grandfathered” short-spacings and those permitted under Section 73.215 of the Commission’s Rules. See Newnan and Peachtree City, Georgia, 7 FCC Rcd 6307 (1992) (pre-1964 “grandfathered” short-spacing); Oceanside and Encinitas, California (pre-1989 “grandfathered” short-spacing); and Killeen and Cedar Park, Texas, 13 FCC Rcd 18790 (1998) (Section 73.215 short-spacing). Consistent with that policy, we note that Station WZPC(FM) a pre-1964 “grandfathered” station that is short-spaced to Station WKDF(FM), Channel 277C, Nashville, Tennessee. However, since Station WZPC(FM) does not seek to change its transmitter site, no new short-spacing would be created, and no existing short-spacing would be exacerbated, Station WZPC(FM) should be afforded the opportunity to change its community of license.

4. We believe that soliciting comments on the proposal warrants consideration, since the reallocation could provide La Vergne, Tennessee with its first local aural transmission service, without depriving Shelbyville of its sole local service. An engineering analysis has determined that Channel 275C1 can be reallocated to La Vergne in compliance with the Commission’s minimum distance separation requirements without the imposition of a site restriction at petitioner’s presently licensed site.⁴ As requested, we propose to modify Station WZPC(FM) license to specify Channel 275C1 at La Vergne as its new community of license. In accordance with the provisions of Section 1.420(i) of the Commission's Rules, we shall not accept competing expressions of interest in the use of Channel 275C1 at La Vergne, Tennessee.

5. Accordingly, we seek comments on the proposed amendment of the FM Table of Allotments, Section 73.202(b) of the Commission's Rules, for the communities listed below, to read as follows:

² See Huntington Broadcasting Co. v. FCC, 192 F.2d 33 (D.C. Cir. 1951); RKO General, Inc., 5 FCC Rcd 3222 (1990); and Faye and Richard Tuck, 3 FCC Rcd 5374 (1988).

³ The FM allotment priorities are: (1) First full-time aural service; (2) Second full-time aural service; (3) First local service; and (4) Other public interest matters. [Co-equal weight given to priorities (2) and (3).]

⁴ The reference coordinates for Channel 275C1 at La Vergne are 35-48-01 North Latitude and 86-37-17 West Longitude.
