by the Contractor that result in productivity improvements and other cost containment accomplishments that will be of future benefit to the FEGLI Program. Examples are containment of costs associated with processing claims; success at preventing waste, loss, unauthorized use, or misappropriation of FEGLI Program assets; and success at limiting and recovering erroneous benefit payments.

(6) *Independent development.* Consideration will be given to independent Contractor-initiated efforts, such as the development of a unique and enhanced customer support system, that are of demonstrated value to the FEGLI Program and for which developmental costs have not been recovered directly or indirectly through allowable or allocable administrative expenses. This factor will be used to provide additional profit opportunities based upon

an assessment of the Contractor's investment and risk in developing techniques, methods, practices, etc., having viability to the Program at large. Improvements and innovations recognized and rewarded under any other profit factor cannot be considered.

(7) *Transitional services.* This factor is based on the Contractor's performance of transitional activities during a continuity of services period as described in the clause at 2152.237-70 of this chapter. These are any activities apart from the normal servicing of the contract during an active contract term. Other than for a transitional period, the weight applied to this factor for any active contract term is zero.

(b) The weight ranges for each factor to be used in the weighted guidelines approach are set forth in the following table:

Profit factor	Weight ranges
1. Contractor performance	0 to +.0005.
2. Contract cost risk	+.000001 to +.00001.
3. Federal socioeconomic programs	-.00003 to +.00003.
4. Capital investment	0 to +.00001.
5. Cost control	-.0002 to +.0002.
6. Independent development	0 to +.00003.
7. Transitional services	0 to +.0007.

Subpart 2116.2—Fixed-Price Contracts

FEGLI Program contracts are fixed price with limited cost redetermination plus fixed fee. The premium paid to the Contractor is mutually agreed upon by OPM and the Contractor and is based on an estimate of benefits and administrative costs, plus the fixed service or risk charge, and is determined annually. Claims costs, including benefits and administrative expenses, in excess of premiums are paid up to the amount in the Employees' Life Insurance Fund. Payment for costs exceeding the amount in the Fund are the responsibility of the Contractor and reinsurers. The fee is fixed at the inception of each contract year. The fee does not vary with the actual costs but may be adjusted as a result of changes in the work to be performed under the contract. The fee is in the

form of either a risk charge or a service charge.

(a) *Risk charge.* The risk charge will be determined as prescribed in 5 U.S.C. 8711(d) and section 2115.404-70 of this chapter.
