

Science, Washington, DC.” The FAA is taking this action in response to a request from the United States (U.S.) Department of Energy to reflect an administrative change of responsibility for the restricted area. This action also revises R-2204, by subdividing the area to create R-2204 High and R-2204 Low. The overall dimensions of R-2204 will remain the same; however, establishing of R-2204 High and R-2204 Low will enable the Department of Energy to activate only that portion of the airspace that is actually needed to contain their operations.

DATES: *Effective Date:* 0901 UTC, July 31, 2008.

FOR FURTHER INFORMATION CONTACT: Ken McElroy, Airspace and Rules Group, Office of System Operations Airspace and AIM, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-8783.

SUPPLEMENTARY INFORMATION:

Background

At the request of the U.S. Department of Energy, the FAA is changing the designated using agency for R-2204 in Alaska. The U.S. Department of Energy is assuming primary responsibility for operations as using agency from their contractor, Sandia Labs. In addition to the action above, the U.S. Department of Energy has assessed their planned operations within Restricted Area R-2204 and determined that many of the operations will be conducted at an altitude below 1,500 feet (ft.) above Mean Sea Level (MSL), and, therefore higher altitudes are not needed for these activities. The primary benefit of this action is to make lower altitudes available on Federal Airway V-438 between the Deadhorse Very High Frequency Omnidirectional Range (VOR) and the Barrow VOR during most periods when Restricted Area R-2204 is active.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 73 by changing the R-2204 using agency currently shown as, “Department of Energy, Sandia National Labs/National Nuclear Security Administration, Albuquerque, NM” to “Department of Energy, Office of Science, Washington, DC.” This action also subdivides R-2204 into R-2204 Low from the surface of the earth up to, but not including 1,500 ft. MSL and R-2204 High from 1,500 ft. MSL up to, but not including, 7,000 ft. MSL. This will make airspace available for flight under visual flight rules (VFR) and will permit

instrument flight rules (IFR) altitudes on V-438 to be available during periods when R-2204 Low is needed to contain activity conducted at altitudes below 1,500 ft. MSL. Accordingly, since this action permits greater access to airspace by both VFR and IFR aircraft during periods of activation of R-2204, High and Low, public procedures under 5 U.S.C. 533(b) are unnecessary.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends restricted areas in Alaska.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with 311d., FAA Order 1050.1E, “Environmental Impacts: Policies and Procedures.” This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

List of Subjects in 14 CFR Part 73

Airspace, Prohibited areas, Restricted areas.

Adoption of the Amendment

■ In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 73 as follows:

PART 73—SPECIAL USE AIRSPACE

■ 1. The authority citation for part 73 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 73.22 [Amended]

■ 2. § 73.22 is amended as follows:

* * * * *

R-2204 Oliktok Point, AK [Remove]

* * * * *

R-2204 Oliktok Point High, AK [New]

Boundaries. Within a 2 NM radius centered at lat. 70°30’35” N., long. 149°51’33” W.

Designated altitudes. 1,500 feet MSL to, but not including, 7,000 feet MSL.

Time of designation: By NOTAM, 24 hours in advance, not to exceed 30 days annually.

Controlling agency. FAA, Anchorage ARTCC.

Using agency. Department of Energy, Office of Science, Washington, DC.

R-2204 Oliktok Point Low, AK [New]

Boundaries. Within a 2 NM radius centered at lat. 70°30’35” N., long. 149°51’33” W.

Designated altitudes. Surface to, but not including, 1,500 feet MSL.

Time of designation: By NOTAM, 24 hours in advance, not to exceed 30 days annually.

Controlling agency. FAA, Anchorage ARTCC.

Using agency. Department of Energy, Office of Science, Washington, DC.

* * * * *

Issued in Washington, DC, on April 14, 2008.

Stephen L. Rohring,

Acting Manager, Airspace and Rules Group.

BILLING CODE 4910-13-P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 165

[USCG-2008-0238]

RIN 1625-AA00

Safety Zone: Kingsmill Resort Fireworks Display, James River, Williamsburg, VA

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a 350 foot radius safety

zone on the James River in the vicinity of Kingsmill Resort in Williamsburg, VA in support of the Kingsmill Resort Fireworks Display.

DATES: This rule is effective from 9 p.m. on May 2, 2008 until 10 p.m. on May 2, 2008.

ADDRESSES: Documents indicated in this preamble as being available in the docket are part of docket USCG-2008-0238 and are available online at www.regulations.gov. They are also available for inspection or copying at two locations: the Docket Management Facility (M-30), U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays, and the Sector Hampton Roads, Norfolk Federal Building, 200 Granby St., 7th Floor, Norfolk, VA 23510 between 9 a.m. and 2 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary rule, call LT Bill Clark, Chief Waterways Management Division, Sector Hampton Roads at (757) 668-5581. If you have questions on viewing the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone 202-366-9826.

SUPPLEMENTARY INFORMATION:

Regulatory Information

We did not publish a notice of proposed rulemaking (NPRM) for this regulation. Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing an NPRM. Any delay encountered in this regulation's effective date by publishing a NPRM would be contrary to public interest since immediate action is needed to prevent vessel traffic from transiting the specified waters to provide for the safety of life and property on navigable waters. Additionally, this temporary safety zone will only be enforced for 1 hour on May 2, 2008 and should have minimal impact on vessel transits due to the fact that vessels can safely transit through the zone when authorized by the Captain of the Port or his Representative and that they are not precluded from using any portion of the waterway except the safety zone area itself. For the same reasons above, under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**.

Background and Purpose

On May 2, 2008, Kingsmill Resort Destination Services of Williamsburg,

VA will sponsor a fireworks display on the shoreline at position 37°13'23" N/ 76°40'12" W (NAD 1983). Due to the need to protect mariners and spectators from the hazards associated with the fireworks display, vessel traffic will be temporarily restricted within a 350 foot radius of the fireworks launching site.

Discussion of Rule

The Coast Guard is establishing a safety zone on specified waters of the James River within the area bounded by a 350 foot radius circle centered on position 37°13'23" N/76°40'12" W (NAD 1983) in the vicinity of Kingsmill Resort, Williamsburg, VA. This safety zone will be established in the interest of public safety during the Kingsmill Resort Fireworks event and will be enforced from 9 p.m. to 10 p.m. on May 2, 2008. General navigation within the safety zone will be restricted during the specified date and times. Except for participants and vessels authorized by the Coast Guard Captain of the Port or his representative, no person or vessel may enter or remain in the regulated area.

Regulatory Evaluation

This rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. Although this regulation restricts access to the safety zone, the effect of this rule will not be significant because: (i) The safety zone will be in effect for a limited duration; and (ii) the Coast Guard will make notifications via maritime advisories so mariners can adjust their plans accordingly.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601-612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. This rule will affect the following entities, some of which may be small entities: The owners or operators of vessels intending to transit or anchor in

a portion of the James River from 9 p.m. to 10 p.m. on May 2, 2008.

The safety zone will not have a significant economic impact on a substantial number of small entities because the zone will only be in place for one hour in the evening when vessel traffic is low. Vessel traffic can pass safely around the zone. Before the effective period, we will issue maritime advisories widely available to users of the river.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104-121), we offer to assist small entities in understanding the rule so that they can better evaluate its effects on them and participate in the rulemaking process.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1-888-REG-FAIR (1-888-734-3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531-1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this rule will not result in such

an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This rule will not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an

explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this rule under Commandant Instruction M16475.ID which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2–1, paragraph (34)(g), of the Instruction, from further environmental documentation because it establishes a safety zone. A final "Environmental Analysis Check List" and a final "Categorical Exclusion Determination" will be available in the docket where indicated under **ADDRESSES**.

List of Subjects 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

■ For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

■ 1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1226, 1231; 46 U.S.C. Chapter 701; 50 U.S.C. 191, 195; 33 CFR 1.05–1(g), 6.04–1, 6.04–6 and 160.5; Pub. L. 107–295, 116 Stat. 2064; Department of Homeland Security Delegation No. 0170.1

■ 2. Add temporary § 165.T05–023, to read as follows:

§ 165.T05–023 Safety Zone: Kingsmill Resort, James River, Williamsburg, VA.

(a) Location. The following area is a safety zone: All waters of the James River, located within the area bounded by a 350 foot radius circle centered on position 37°13'23" N/076°40'12" W (NAD 1983) in the vicinity of Kingsmill Resort, Williamsburg, VA and in the Captain of the Port Sector Hampton

Roads zone as defined in 33 CFR 3.25–10.

(b) Definition:

(1) As used in this section; Captain of the Port Representative means any U.S. Coast Guard commissioned, warrant or petty officer who has been authorized by the Captain of the Port, Hampton Roads, Virginia to act on his behalf.

(c) Regulation:

(1) In accordance with the general regulations in § 165.23 of this part, entry into this zone is prohibited unless authorized by the Captain of the Port, Hampton Roads or his designated representatives.

(2) The operator of any vessel in the immediate vicinity of this safety zone shall:

(i) Stop the vessel immediately upon being directed to do so by any commissioned, warrant or petty officer on shore or on board a vessel that is displaying a U.S. Coast Guard Ensign.

(ii) Proceed as directed by any commissioned, warrant or petty officer on shore or on board a vessel that is displaying a U.S. Coast Guard Ensign.

(3) The Captain of the Port, Hampton Roads and the Sector Duty Officer at Sector Hampton Roads in Portsmouth, Virginia can be contacted at telephone number (757) 668–5555 or (757) 484–8192.

(4) The Captain of the Port Representative enforcing the safety zone can be contacted on VHF–FM marine band radion, channel 13 (156.65Mhz) and channel 16 (156.8Mhz).

(d) Enforcement Period: This section will be enforced from 9 p.m. to 10 p.m. on May 2, 2008.

Dated: April 3, 2008.

Patrick B. Trapp,

Captain, U.S. Coast Guard, Captain of the Port, Hampton Roads.
