The Service has completed recovery plans for many of these species at various times between 1980 and 1996 to identify actions necessary to effect recovery. The ivory-billed woodpecker, Bachman's warbler, silver rice rat, Key Largo woodrat, and Key Largo cotton mouse do not have approved recovery plans. Since the approval of many of the recovery plans for South Florida species, identified tasks have been completed, and new information has become available on the biology, distribution, life history, and needs of these species. In addition, some species with a South Florida population had no tasks identified for recovery in this area. This plan updates some existing recovery plans, serves as the recovery plan for other species, or identifies South Florida's contribution to recovery. The plan also addresses new threats and needs for all the species identified within it. This plan is Volume I of a two volume effort to identify recovery needs of the species of South Florida and the ecosystems upon which they depend. The focus of Volume I is the individual species, while Volume II integrates the species needs with those of the vegetative communities in which they reside.

Paper copies of the draft recovery plan are available for public inspection at the following locations:

New Mexico: Proposed Reinstatement of Terminated Oil and Gas Lease

Under the provisions of Pub. L. 97-451, a petition for reinstatement of oil and gas lease NMMN 95616 for lands in Rio Arriba County, New Mexico, was timely filed and was accompanied by all required rentals and royalties accruing from September 1, 1997, the date of termination.

No valid lease has been issued affecting the lands. The lessee has agreed to new lease terms for rentals and royalties at rates of \$20.00 per acre or fraction thereof and 18²/₃ percent, respectively. The lessee has paid the required \$500 administrative fee and has reimbursed the Bureau of Land Management for the cost of this **Federal Register** notice.

The Lessee has met all the requirements for reinstatement of the lease as set out in Sections 31(d) and (e) of the Mineral Leasing Act of 1920 (30 U.S.C. 188), and the Bureau of Land Management is proposing to reinstate the lease effective March 1, 1996, subject to the original terms and conditions of the lease and the increased rental and royalty rates cited above.
