										[11] Approved: Procedural or enforcement provisions not IBR 272.2401 (b)(2)	[12] Unauthorized Broader in Scope provisions 272.2401 (b)(3)	[13] Other Unauthorized or Extra provisions: Omit from codification
173-303-600(1)	270.1(c)(2), 264.1(a)	Same citation	6/27/84; 6/10/00	1/31/86; TBD	AG (Base, p. 11), V; Mini- authorization		N-H	The State's base program provision has been amended. The phrase "and 173-303-420 through 173-303-440" was removed by the 3/11/88 (Order DE-87-37) amendment. This is a conforming change relative to the moving of the provisions at 173-303-420 and 173-303-430 to 173-303-282 and 173-303-283 and the removal of 173-303-440 from the State's regulations. The 3/7/91 (Order 90-42) amendment also made a conforming change by replacing "173-303-670" with "173-303-680". EPA determined that the State-initiated changes are acceptable and should be part of a mini-authorization.	X			
173-303-600(3)(c)	264.1(e)	Same citation	6/27/84; 6/10/00	1/31/86; TBD	IVA; Mini- authorization		N-H	The provision was initially authorized as part of the base program. It has been revised by the 3/11/91 (Order 90-42) amendment by changing the wording addressing permit-by-rule for clarity. EPA determined to include in mini-authorization for completeness.	X

173-303-600(3)(e)	264.1(g)(1)	Same citation	6/27/84; 6/10/00	1/31/86; TBD	IVA; Mini- authorization		N-H	The State's provision was initially authorized as part of the base program. The internal reference "173-301" was changed to "173-304" by the 6/26/87 (Order DE-87-4) amendment to conform to changes in the renumbering of the WA solid waste regulations; EPA determined that this is acceptable and should be included in the mini-authorization for completeness.	X			
173-303-600(3)(j)	264.1(g)(5) and (6); 270.1(c)(2) (iv) and (v)	Same citation	6/27/84; 6/10/00	1/31/86; TBD	Base, V; Mini- authorization		N-H	The State's provision was part of its base program regulations. Minor wording change have been made by 3/7/91 (Order 90-42). The State subjects totally enclosed facilities or elementary neutralization or wastewater treatment units to a permit by rule pursuant to 173-303-802(5). EPA has approved this provision to be included in a mini-authorization FR notice.	X

173-303-600(7)	No federal analog; related to 264.1	Not authorized	6/10/00	TBD	Mini-authorization		H	Final facility requirements apply to owners and operators of all facilities that treat, store or dispose of hazardous wastes referred to in 40 CFR Part 268. This State provision was added in either 1995 or 1998. Although the provision is consistent with Federal requirements, it has not been authorized. EPA determined that it may be included in a mini-authorization.	X			
173-303-610(1)(b)	264.110(b)	Same citation	6/27/84; 9/6/88; 1/8/94; 2/11/98; 6/10/00	1/31/86; 10/26/90; 4/26/96; 1/11/00; TBD	AG (Base, p. 11), IVA; 24; 28; 109; Mini-authorization		N-H; N-H; Both; H	The "610(b)" cited on the checklist and in the authorization FR notice for CL 109 is incorrect. The correct citation is "610(1)(b)". Note that the correction is to remove "(b) from after "610". The State's provision has not changed since 2/11/98. EPA has approved this provision to be included in a mini-authorization FR notice rather than a technical correction.	X			

CROSSWALK OF WASHINGTON REGULATORY PROVISIONS - PART 3 OF 3 (cont'd)

[1] State citation (06/10/00 Official Regs., Unless otherwise specified)	[2] Federal Analog (July 1, 1999 CFR, Unless otherwise specified)	[3] State Citation as Found in Authorized Regulations	[4] Effective Date of Authorized State Regulations	[5] Effective Date of Auth- orization	[6] Checklist/Auth- orization Basis	[7] More Strin- gent	[8] HSWA /non- HSWA	[9] Description/Basis for Classification	[10] Authorized: Approved and incorporated by reference 272.2401 (b)(1)	Not Incorporated by Reference		
										[11] Approved: Procedural or enforcement provisions not IBR 272.2401 (b)(2)	[12] Unauthorized Broader in Scope provisions 272.2401 (b)(3)	[13] Other Unauthorized or Extra provisions: Omit from codification
173-303-610(3)(a)(iii)	264.112(b)(3)	173-303-610(3)(a)(ii); 173-303-610(3)(a)(iii)	6/7/84; 9/6/88; 6/10/00	1/31/86; 10/26/90; TBD	AG (Base, p. 11), IVA; 24; Mini- authorization		N-H	The State's provision was authorized as part of its base program. Subsequent amendments were authorized as part of CL 24. The provision has been amended effective 6/10/00 by replacing "minor modification" with "Class 1 modification with prior approval". The term "Class 1 modification" is consistent with the Federal code; EPA determined that it is acceptable to include in a mini-authorization.	X			
173-303-610(3)(a)(iv)	264.112(b)(3)	Not authorized	6/10/00	TBD	Mini- authorization		N-H	The State's provision was added at the same time as the CL 24 amendments were adopted (87-14-029 (Order DE-87-4), 6/26/87). This paragraph should have been authorized with CL 24 because 173-303-610(3)(a)(iii) and (iv) (not just 173-303-610(3)(a)(iii)) together make up the analog to 264.112(b)(3). For completeness, EPA determined that the paragraph should be included in a mini-authorization.	X

173-303- 610(3)(a) (viii)	264.112(b)(7)	Not authorized	6/10/00	TBD	Mini- authorization		N-H	The optional Federal provision was introduced by CL 24; however, Washington did not have an analog to the Federal provision when the State was authorized for CL 24. The provision was added to the State's regulations in either 1995 or 1998. The State's provision is equivalent to Federal and EPA determined that it may be included in a mini-authorization.	X)

173-303- 610(6)	264.115	Same citation	6/27/84; 9/6/88; 6/10/00	1/31/86; 10/26/90; TBD	AG (Base, p. 11), IVA; 24; Mini- authorization		N-H	The State's authorization has been amended since the CL 24 authorization. The 3/7/91 (Order 90-42) amendment replaced "dangerous waste surface impoundment, waste pile, land treatment, and landfill" with "dangerous waste management unit (including tank systems and container storage areas)". The State's definition of "dangerous waste management unit" at 173-303-040 makes the State's revision consistent and equivalent to the Federal 264.115 provision; however, the revised provision has not been authorized. EPA determined that the State-initiated change may be included in a mini-authorization.	X			.

CROSSWALK OF WASHINGTON REGULATORY PROVISIONS - PART 3 OF 3 (cont'd)

The State's provision has been amended since the 1/8/94 by replacing the phrase "as applicable" with "as required by WAC 173-303-645, 173-303-650, 173-303-655, 173-303-660, 173-303-665, and 173-303-680". This makes the State more like the Federal; the Federal code references subparts F, K, L, M, N, and X of part 264. The State-initiated change is acceptable; however, it has not been authorized. EPA has approved this provision to be included in a mini-authorization FR notice.	X			
173-303-610(8)(a)	264.118(a)	Same citation	6/27/84; 9/6/88; 6/10/00	1/31/86; 10/26/90; TBD	AG (Base, p. 11), IVA; 24; Mini- authorization		N-H	Not changed since 9/6/88, since, except for minor wording change at (8)(a) by the 1/4/89 amendment. EPA determined that the State-initiated change is acceptable for the mini-authorization.	X			

CROSSWALK OF WASHINGTON REGULATORY PROVISIONS - PART 3 OF 3 (cont'd)

[1] State citation (06/10/00 Official Regs., Unless otherwise specified)	[2] Federal Analog (July 1, 1999 CFR, Unless otherwise specified)	[3] State Citation as Found in Authorized Regulations	[4] Effective Date of Authorized State Regulations	[5] Effective Date of Auth- orization	[6] Checklist/Auth- orization Basis	[7] More Strin- gent	[8] HSWA /non- HSWA	[9] Description/Basis for Classification	[10] Authorized: Approved and incorporated by reference 272.2401 (b)(1)	Not Incorporated by Reference

173-303-610(8)(b)(ii) introductory paragraph	264.118(b)(2) introductory paragraph	Same citation	6/27/84; 9/6/88; 6/10/00	1/31/86; 10/26/90; TBD	AG (Base, p. 11), IVA; 24; Mini- authorization		N-H	Since the CL 24 authorization, the State has amended the paragraph by adding the phrase "to comply with WAC 173-303-645, 173-303-650, 173-303-655, 173-303-660, 173-303-665, and 173-303-680". The phrase was added in either 1995 or 1998 and has not been authorized. The State-initiated change clarifies the regulations and, therefore, EPA determined that it can be included in a mini-authorization.	X			
173-303-610(8)(b)(ii)(A)	264.118 (b)(2)(i)	Same citation	6/27/84; 9/6/88 1/8/94; 6/10/00	1/31/86; 10/26/90; 4/29/96; TBD	AG (Base, p. 11), IVA; 24; 45; Mini- authorization		N-H	State's provision has been amended since the CL 45 authorization by replacing the phrase "where applicable" with "in accordance with the requirements of 173-303-645, 173-303-650, 173-303-655, 173-303-660, 173-303-665, and 173-303-680". This makes the State more like the Federal; the Federal code references subparts F, K, L, M, N, and X of part 264. The State-initiated change is acceptable; however, it has not been authorized. EPA determined that it may include in a mini-authorization.	X

173-303-610(8)(d)(ii)(C)	264.118 (d)(2)(iii)	Same citation	9/6/88; 1/8/94; 6/10/00	10/26/90; 4/29/96; TBD	24; 54; Mini-authorization		N-H	The State's provision was after the CL 24 authorization (effective 6/10/00) as part of the CL 174 changes by adding "or" at the end of the paragraph to conform with the addition of subparagraph (D). EPA has approved this provision to be included in a mini-authorization FR notice.	X			
173-303-620(1)(b) intro	264.140(b) introductory paragraph	173-303-620(1)(b)	6/27/84; 6/10/00	1/31/86; TBD	AG (Base, p. 12), IVA; Mini-authorization		N-H	Since the base authorization, the State has restructured its analog to 264.140(b) by breaking the provision into subparagraphs to be more like Federal; however, the State-initiated change has not been authorized. EPA determined that it may included in a mini-authorization.	X

173-303- 620(1)(b)(i)	264.140(b)(1)	173-303- 620(1)(b); 173-303- 620(1)(b)(i)	6/27/84; 2/11/98; 6/10/00	1/31/86; 1/11/00; TBD	AG (Base, p. 12), IVA; 109; Mini- authorization		N-H	Dangerous waste disposal facilities. Note that the State's provision was restructured after base authorization and was authorized as part of HSWA CL 109. CL 109 did not make a substantive change to the provision; therefore it is still a non-HSWA provision. Note that there is an error in the authorization FR notice for CL 109; the reference to "620" is missing. "620:" should be inserted after the reference to 610(3)(a). Without the "620", it appears that the citation is "610(1)(b)(i)" and the State is not authorized for its analogs to the CL 109 changes to 40 CFR 264.140(b). The State's provision has not changed since 2/11/98. EPA has approved this provision to be included in a mini-authorization FR notice rather than a technical correction.	X

Washington appears to have added this provision at the same time it adopted the non-HSWA requirements for miscellaneous units; however, the provision was not cited as part of the State's authorization. There is no direct analog to the State's provision; however, to the extent that miscellaneous units are disposal units, the State is consistent with Federal. EPA determined that it should be included in a mini-authorization.	X

The following phrase was added by 87-14-029 (Order DE-87-4, filed 6/26/87: "but are not required to include the cost of expected closure under (a) of this subsection." This phrase is found in the Federal analog. This provision was part of the Federal Base program and has not changed since then. Note: There appears to be an error in the numbering of the state's regulations occurring at 173-303-665(2)(i). The regulations go from 173-303-665(2)(h)(v) directly to 173-303-665(2)(j). They do not contain a section 173-303-665(2)(i). The State may wish to correct this error by renumbering 173-303-665(2)(j) through (l) as 173-303-665(2)(I) through (k), or alternatively, maintain the current numbering by inserting 173-303-665(2)(i) and reserving it.

Note that the 173-303-807(10) cited on the State's checklist and the authorization <u>FR</u> notice for CL 60 is found in the 1/8/94 regulations. In the 2/11/98 regulations, the provision has been redesignated as 173-303-807(12). Because the 1999 authorization <u>FR</u> refers to the 2/11/98 version of the regulations, 173-303-807(12) should have been cited for CL 60. EPA has decided include a technical correction for the CL 60 authorization. Note that in the original authorization for CL 60, the provision was identified as being more stringent. The reauthorization clarifies that the provision is equivalent to the Federal code.	X
