

Bureau of Land Management, Interior

§ 2410.1

(b) *Commercial* refers to the sale, exchange, or distribution of goods and services.

(c) *Industrial* refers to the manufacture, processing, and testing of goods and materials, including the production of power. It does not refer to the growing of agricultural crops, or the raising of livestock, or the extraction or severance of raw materials from the land being classified, but it does include activities incidental thereto.

(d) *Agricultural* refers to the growing of cultivated crops.

(e) *Community* refers to a village, town or city, or similar subdivision of a State, whether or not incorporated.

(f) *Domestic livestock* refers to cattle, horses, sheep, goats and other grazing animals owned by livestock operators, provided such operators meet the qualification set forth in §4111.1-1 or §4131.1-3 of this chapter. This definition includes animals raised for commercial purposes and also *domestic livestock* within the meaning of §4111.3-1(d)(1) of this chapter.

(g) *Fish and wildlife* refers to game, fish and other wild animals native or adaptable to the public lands and waters.

(h) *Mineral* refers to any substance that (1) is recognized as mineral, according to its chemical composition, by the standard authorities on the subject, or (2) is classified as mineral product in trade or commerce, or (3) possesses economic value for use in trade, manufacture, the sciences, or in the mechanical or ornamental arts.

(i) *Occupancy* refers to use of lands as a site for any type of useful structure whatsoever.

(j) *Outdoor recreation* includes, but is not limited to, hunting, fishing, trapping, photography, horseback riding, picnicking, hiking, camping, swimming, boating, rock and mineral collecting, sightseeing, mountain climbing, and skiing.

(k) *Timber production* refers to the growth of trees in forests and woodlands.

(l) *Watershed protection* refers to maintenance of the stability of soil and soil cover and the control of the natural flow of water.

(m) *Wilderness* refers to areas in a native condition or reverted to a native

condition, substantially free of man-made structures and human habitation.

(n) *Public value* refers to an asset held by, or a service performed for, or a benefit accruing to the people at large.

(o) *Multiple use* means the management of the various surface and subsurface resources so that they are utilized in the combination that will best meet the present and future needs of the American people; the most judicious use of the land for some or all of these resources or related services over areas large enough to provide sufficient latitude for periodic adjustments in use to conform to changing needs and conditions; the use of some land for less than all of the resources; and harmonious and coordinated management of the various resources, each with the other, without impairment of the productivity of the land, with consideration being given to the relative values of the various resources, and not necessarily the combination of uses that will give the greatest dollar return or the greatest unit output.

(p) *Sustained yield of the several products and services* means the achievement and maintenance of a high-level annual or regular periodic output of the various renewable resources of land without impairment of the productivity of the land.

PART 2410—CRITERIA FOR ALL LAND CLASSIFICATIONS

Subpart 2410—General Criteria

Sec.

2410.1 All classifications.

2410.2 Relative value, disposal or retention.

SOURCE: 35 FR 9560, June 13, 1970, unless otherwise noted.

Subpart 2410—General Criteria

§ 2410.1 All classifications.

All classifications under the regulations of this part will give due consideration to ecology, priorities of use, and the relative values of the various resources in particular areas. They must be consistent with all the following criteria:

§ 2410.2

(a) The lands must be physically suitable or adaptable to the uses or purposes for which they are classified. In addition, they must have such physical and other characteristics as the law may require them to have to qualify for a particular classification.

(b) All present and potential uses and users of the lands will be taken into consideration. All other things being equal, land classifications will attempt to achieve maximum future uses and minimum disturbance to or dislocation of existing users.

(c) All land classifications must be consistent with State and local government programs, plans, zoning, and regulations applicable to the area in which the lands to be classified are located, to the extent such State and local programs, plans, zoning, and regulations are not inconsistent with Federal programs, policies, and uses, and will not lead to inequities among private individuals.

(d) All land classifications must be consistent with Federal programs and policies, to the extent that those programs and policies affect the use or disposal of the public lands.

[35 FR 9560, June 13, 1970]

§ 2410.2 Relative value, disposal or retention.

When, under the criteria of this part, a tract of land has potential for either retention for multiple use management or for some form of disposal, or for more than one form of disposal, the relative scarcity of the values involved and the availability of alternative means and sites for realization of those values will be considered. Long-term public benefits will be weighed against more immediate or local benefits. The tract will then be classified in a manner which will best promote the public interests.

[35 FR 9560, June 13, 1970]

PART 2420—MULTIPLE-USE MANAGEMENT CLASSIFICATIONS

Subpart 2420—Criteria for Multiple-Use Management Classifications

Sec.

2420.1 Use of criteria.

2420.2 Criteria.

43 CFR Ch. II (10–1–04 Edition)

SOURCE: 35 FR 9561, June 13, 1970, unless otherwise noted.

Subpart 2420—Criteria for Multiple-Use Management Classifications

§ 2420.1 Use of criteria.

In addition to the general criteria in subpart 2410, the following criteria will be used to determine whether public lands will be retained, in Federal ownership and managed for domestic livestock grazing, fish and wildlife development and utilization, industrial development, mineral production, occupancy, outdoor recreation, timber production, watershed protection, wilderness preservation, or preservation of public values that would be lost if the land passed from Federal ownership.

[35 FR 9561, June 13, 1970]

§ 2420.2 Criteria.

Lands may be classified for retention under the Classification and Multiple Use Act of September 19, 1964 (78 Stat. 986, 43 U.S.C. 1411-18), if they are not suitable for disposal under the criteria set forth in part 2430 and such classification will do one or more of the following:

(a) Assist in effective and economical administration of the public lands in furtherance of the several objectives of such administration as expressed in the various public land laws.

(b) Further the objectives of Federal natural resource legislation directed, among other things towards:

(1) Stabilization and development of the livestock industry dependent upon Federal lands, such as sections 1 and 15 of the Taylor Grazing Act (43 U.S.C. 315 and 315m), and the Alaska Grazing Act (48 U.S.C. 471-471o).

(2) Provision or preservation of adequate areas of public hunting and fishing grounds and public access thereto, and maintenance of habitat and food supplies for the fish and wildlife dependent upon the public lands and maintained under Federal and State programs, such as section 9 of the Taylor Grazing Act (43 U.S.C. 315h) and the Fish and Wildlife Coordination Act (16 U.S.C. 661-666c).
