SUPPLEMENTARY INFORMATION: Title: NSPS for Synthetic Fiber Production Facilities (subpart HHH); OMB Control No. 2060-0059; EPA ICR No. 1156.07. This requests an extension for a currently approved collection.

Abstract: This ICR collects compliance information from sources subject to NSPS subpart HHH. The recordkeeping and reporting provisions include initial notifications, performance tests, and quarterly excess emissions reports or semiannual reports. In addition to the general recordkeeping and reporting required by NSPS sources, subpart HHH requires a report if a source is claiming exemption under 60.600(a). The information is used to determine initial compliance and continued compliance through proper maintenance and operation. The collection of information is mandatory (40 CFR Part 60, CAA section 111). It has been determined that emissions data is not confidential information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on March 26, 1996, Volume 61 number 59; no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 32 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of

information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners and operators of synthetic fiber production plants.

Estimated Number of Respondents: 29.

Frequency of Response: Initial notifications, semiannually and annually.

Estimated Total Annual Hour Burden: 2449 hours.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1156.07, and OMB Control No. 2060-0059 in any correspondence.
