

## § 2430.2

### § 2430.2 General criteria for disposal classification.

The general approach to determine the act under which lands are to be classified and disposed of is as follows:

(a) Consideration under criteria listed in this part will first be given to whether the lands can be classified for retention for multiple use management, for disposal, or for both. If, under these criteria, they could be classified for both, the principles of § 2410.2 will be applied.

(b) If the lands are found to be suitable for disposal, consideration under the criteria of this part will be given to whether the lands are needed for urban or suburban purposes or whether they are chiefly valuable for other purposes. Lands found to be valuable for public purposes will be considered chiefly valuable for public purposes, except in situations where alternate sites are available to meet the public needs involved.

### § 2430.3 Additional criteria for classification of lands needed for urban or suburban purposes.

(a) To be needed for urban or suburban purposes it must be anticipated that a community will embrace the lands within 15 years.

(b) Lands determined to be needed for urban or suburban purposes may be classified for sale pursuant to the Public Land Sale Act as being required for the orderly growth and development of a community, if (1) adequate zoning regulations are in effect and (2) adequate local governmental comprehensive plans have been adopted.

(c) Lands determined to be needed for urban or suburban purposes may be classified for disposal under any appropriate law other than the Public Land Sale Act, if disposal under such other authority would be consistent with local comprehensive plans, or in the absence of such plans, with the views of local governmental authorities.

(d) Where more than one form of disposal is possible, the authorized officer will select that course of action which will best promote development of the land for urban or suburban purposes.

## 43 CFR Ch. II (10-1-04 Edition)

### § 2430.4 Additional criteria for classification of lands valuable for public purposes.

(a) To be valuable for public purposes, lands must be suitable for use by a State or local governmental entity or agency for some noncommercial and nonindustrial governmental program or suitable for transfer to a non-Federal interest in a transaction which will benefit a Federal, State, or local governmental program.

(b) Lands found to be valuable for public purposes may be classified for sale pursuant to the Public Land Sale Act as chiefly valuable for public uses or development or for transfer in satisfaction of a State land grant, or for transfer to a State or local governmental agency in exchange for other property, or for transfer to a governmental agency under any applicable act of Congress other than the Recreation and Public Purposes Act (44 Stat. 741), as amended (43 U.S.C. 869-869-4), if (1) the proposed use includes profit activities or if the interested, qualified governmental agency and the authorized officer agree that there is no need for the perpetual dedication of the lands to public uses required by the Recreation and Public Purposes Act, and (2) in the case of sales under the Public Land Sale Act, adequate zoning regulations exist in the area in which the lands are located.

(c) Lands found to be valuable for public purposes will ordinarily be classified for sale or lease under the Recreation and Public Purposes Act (see part 2740 and subpart 2912 of this chapter) if the proposed use involves nonprofit activities and if it is determined by the authorized officer that the provisions of that Act are required to insure the continued dedication of the lands to such uses, or otherwise to carry out the purposes of the Act.

(d) Lands may be classified for exchange under appropriate authority where they are found to be chiefly valuable for public purposes because they have special values, arising from the interest of exchange proponents, for exchange for other lands which are needed for the support of a Federal program.
