Topography of Maalaea Bay
Island of Maui, H.I.

The topography along the shoreline of Maalaea Bay may be conveniently divided into three sections, - from the southeastern limit to the town of Kihui - from Kihui to the landing at "Maalaea Bay" and from the landing to the southwestern limit.

The first section consists of a sandy waste sparsely scattered with scrub bushes and low trees

The middle section consists of a shallow lake
in the center of a wide level expanse of land
