Dear FCC:

I am an XM sub, and do not support the merger. Everyone knows that top management on both sides made poor business decisions for over paying for programming, and "talent" that was banned from FM. I cant find any specific evidence that this will in anyway help the consumer by creating a MONOPOLY of satellite radio where we as consumers will have no choice but going back to over regulated FM. The suits at the top made the choices...they should sink or swim on their own and not look to our government to fix their poor business decisions.

Sincerely,
