Title: FAR Case 2006-029, Federal Funding Accountability and Transparency Act (FFATA)--Reporting Requirement of Subcontractor Award Data

Abstract: This rule amends the FAR to require that contractors report specific subcontract awards to a public database. The Federal Funding Accountability and Transparency Act of 2006 (FFATA) (Pub. L. 109-282) requires the existence and operation of a searchable website that provides public access to information about Federal expenditures. The FFATA specifically requires that a pilot program be established to test the collection and accession of subcontract award data. As a result, subcontracts awarded and funded with Federal appropriated funds will be disclosed to the public in a single searchable website. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of Executive Order 12866 "Regulatory Planning and Review," dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.
