Report Description

This report provides a complete listing of evaluation, violation and enforcement activities for each Handler. Below the Handler ID information, the data is presented in three sections; evaluations, violations and enforcements. Comments, referred to as Notes, are provided in the respective sections for evaluations and violations. Violation coverage areas are shown horizontally across the page in the evaluation data section. Since evaluations are included regardless of whether or not violations are identified, this report also serves as a useful management tool for tracking progress made towards meeting RECAP commitments.
