

**CONGRESSIONAL BUDGET OFFICE
COST ESTIMATE**

September 25, 1998

S. 2505

**A bill to direct the Secretary of the Interior to convey title to the
Tunnison Lab Hagerman Field Station in Gooding County, Idaho,
to the University of Idaho**

*As ordered reported by the Senate Committee on Environment and Public Works
on September 23, 1998*

S. 2505 would direct the Secretary of the Interior to convey to the University of Idaho the Tunnison Lab complex and other property on about four acres of land at the Hagerman National Fish Hatchery, Idaho, without reimbursement.

Because these facilities are already operated by the university (at its expense), CBO expects that implementing S. 2505 would have no impact on the federal budget. The bill would not affect direct spending or receipts; therefore, pay-as-you-go procedures would not apply.

S. 2505 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would have no significant impact on the budgets of state, local, or tribal governments. The University of Idaho currently operates the Tunnison Lab, and CBO estimates that it would incur no significant additional costs as a result of this conveyance.

The CBO staff contact is Deborah Reis. This estimate was approved by Paul N. Van de Water, Assistant Director for Budget Analysis.
