Catalog Number: 101308
Report Number: NCRP Report No. 94
Title: Exposure of the population in the United States and Canada from Natural background radiation [NCRP Report No. 94]
Authors: National Council on Radiation Protection and Measurements
Place of Publication: Bethesda, MD
Publisher: The Council
Description: viii, 209 p. : Ill.
23 cm.
Publication Year: 1987

Abstract: This report is intended to give a broad picture of exposure to natural background radiation. It will include considerable descriptive material in the introductory chapters to aid in understanding natural background radiation. The data presented will summarize the available information on the levels of natural radiation in the environment, the consequent average exposures and radiation doses to the population and, whenever possible, the distribution or at least the variability of these factors will be indicated.
