**§ 648.230 Catch quotas and other restrictions.**

(a) *Annual review.* The Spiny Dogfish Monitoring Committee will annually review the following data, subject to availability, to determine the total allowable level of landings (TAL) and other restrictions necessary to assure a target fishing mortality rate (F) of 0.2 in 1999 through April 30, 2000, a target F of 0.03 from May 1, 2000, through April 30, 2004, and a target F of 0.08 thereafter will not be exceeded: Commercial and recreational catch data; current estimates of F; stock status; recent estimates of recruitment; virtual population analysis results; levels of noncompliance by fishermen or indi-

vidual states; impact of size/mesh regulations; sea sampling data; impact of gear other than otter trawls and gill nets on the mortality of spiny dogfish; and any other relevant information.

(b) *Recommended measures.* Based on this review, the Spiny Dogfish Monitoring Committee shall recommend to the Joint Spiny Dogfish Committee a commercial quota and any other measures including those in paragraphs (b)(1)-(b)(5) of this section that are necessary to assure that the F specified in paragraph (a) of this section for the upcoming fishing year (May 1 through April 30) will not be exceeded. The quota may be set within the range of zero to the maximum allowed. The measures that may be recommended include, but are not limited to:

- (1) Minimum or maximum fish sizes;
- (2) Seasons;
- (3) Mesh size restrictions;
- (4) Trip limits; or
- (5) Other gear restrictions.

(c) *Annual fishing measures.* The Councils' Joint Spiny Dogfish Committee shall review the recommendations of the Spiny Dogfish Monitoring Committee. Based on these recommendations and any public comments, the Joint Spiny Dogfish Committee shall recommend to the Councils a commercial quota and, possibly, other measures, including those specified in paragraph (b) of this section, necessary to assure that the F specified in paragraph (a) of this section for the upcoming fishing year (May 1 through April 30) will not be exceeded. The commercial quota may be set within the range of zero to the maximum allowed. The Councils shall review these recommendations and, based on the recommendations and any public comments, recommend to the Regional Administrator a commercial quota and other measures necessary to assure that the F specified in paragraph (a) of this section for the upcoming fishing year will not be exceeded. The Councils' recommendations must include supporting documentation, as appropriate, concerning the environmental, economic, and other impacts of the recommendations. The Regional Administrator shall initiate a review of these recommendations and may modify the recommended quota and other

The Regional Administrator may modify the Councils' recommendations using any of the measures that were not rejected by both Councils. After such review, NMFS shall publish a proposed rule in the FEDERAL REGISTER specifying a coastwide commercial quota and other measures necessary to assure that the F specified in paragraph (a) of this section will not be exceeded. After considering public comments, NMFS shall publish a final rule in the FEDERAL REGISTER to implement such a quota and other measures.

(d) *Distribution of annual quota.* (1) The annual quota specified according to the process outlined in paragraph (a) of this section shall be allocated between two semi-annual quota periods as follows: May 1 through October 31 (57.9 percent) and November 1 through April 30 (42.1 percent).

(2) All spiny dogfish landed for a commercial purpose in the states from Maine through Florida shall be applied against the applicable semi-annual commercial quota, regardless of where the spiny dogfish were harvested.
