ionium) and NIGHT CHARGER

"If you're going to get big, ripped, and strong, you can't waste almost 33% of your growth potential ... the 6 -8 hours of down-time while you sleep.

Urban Biologics has joined the "night time" protein arena with Night Charger. Along with its *atent-pending NitroVarin base. Night Charger optimizes the muscle-building sleep cycle with its own drug free, "relaxing" compound. In addition, Night Charger contains a potent anti-catabolic admixture designed exclusively for Urban Biologics by noted author. lecturer, and world renowned muscle recovery expert, Mauro Di Pasquale, M.D.

"When it came to maximi ing muscle mass, we've been missing the boat for years... because we ignored the nightly decrease in muscle growth caused by past absorptive musele catabolism. Well, no more. The new 'night time' proteins will revolutionize bodybuilding by filling that crucial gap.
