## Deferred Maintenance

The U.S. Department of the Interior owns, builds, purchases, and contracts services for assets such as schools, office buildings, roads, bridges, dams, irrigation systems, and reservoirs. These assets are used to support the Interior's mission. Deferred maintenance is defined as routine maintenance not performed when it should have been or when it was scheduled and which, therefore, was put off or delayed for a future period. This definition aligns to SFFAS No. 6, Accounting for Property, Plant, and Equipment.

Deferred maintenance can have an adverse affect on Interior's ability to carry out its mission. For example, a lack of maintenance on windows, heating, ventilation, and air conditioning systems, or other components of a constructed asset, typically results in increased energy costs. Excess energy usage needlessly expends limited resources.

Similarly, deteriorated offices, laboratories, and schools result in an inefficient and unprofessional working environment and a poor learning environment that negatively impacts morale, the ability to attract and retain talented employees, and to educate Native American students and visitors to Interior's facilities. In addition, since one mission of Interior bureaus is to maintain facilities for recreational use by the public, assets that pose a health and safety threat cannot be made available for public use until repairs can be made. Undue wear on facilities may not be immediately noticeable to users, but inadequate maintenance can require that a facility be replaced or undergo major reconstruction before reaching the end of its expected useful life.

The SFFAS No. 6, Accounting for Property, Plant, and Equipment, SFFAS No. 14, Amendments to Deferred Maintenance Reporting Amending SFFAS No. 6, Accounting for Property, Plant, and Equipment and SFFAS No. 8, Supplementary Stewardship Reporting, and SFFAS No. 29, Stewardship Land and Heritage Assets, require annual disclosure of the estimated cost to remedy accumulated deferred maintenance on Interior PP\&E. Both General PP\&E and Stewardship PP\&E are included.

## Planning to Reduce Deferred Maintenance

Interior has a 5-Year planning process that provides a framework for improved planning and management of maintenance and construction programs and better defines accumulated deferred maintenance funding needs. Interior's 5-Year Plan is updated annually to reflect a 5-year picture of the bureaus' deferred maintenance and capital improvement needs. The annual update presents the opportunity for bureaus to adjust their project priorities based on newly identified needs or previously identified needs that have become critical during the past year. It focuses on projects that eliminate deferred maintenance or restore constructed assets that are mission critical or mission dependent and are in poor condition, and that are a critical element in the implementation of the Interior Asset Management Plan, Bureau Asset Management Plans, and SiteSpecific Asset Business Plans.

The most current guidance on updating the 5-Year Plan is contained in Attachment G of the Interior Annual Budget Guidance. Maintenance and repair projects, including those that wholly or partly address deferred maintenance, are prioritized within each bureau by using a standard project ranking formula contained in Attachment G. The Department does not directly prioritize assets for funding. Rather, it provides the ranking formula and other narrative guidance in Attachment G to assist bureaus' prioritization efforts and to focus available resources.

In preparing the plan, the bureaus follow uniform criteria established by the Department for critical health and safety and resource protection projects. These criteria also facilitate a thorough review and provide consistent information to management for prioritization decisions.

## Critical Deferred Maintenance

Categories of deferred maintenance for analytic purposes include:
(a) Critical Health and Safety Deferred Maintenance—poses a serious threat to public or employee safety or health;
(b) Critical Resource Protection Deferred Maintenance—poses a serious threat to natural or cultural resources;

| FY 2008 Deferred Maintenance Estimates (in thousands) |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | General PP\&E |  |  | Stewardship PP\&E |  |  |  | Total |  |
|  | Low |  | High |  | Low |  | High | Low | High |
| Financial Statement Estimated Deferred Maintenance |  |  |  |  |  |  |  |  |  |
| Roads Bridges and Trails | \$ 5,444,574 |  | 8,008,237 | \$ | 964,207 |  | 1,363,407 | \$6,408,781 | \$9,371,644 |
| Irrigation, Dams, and Other Water Structures | 2,033,930 |  | 3,056,283 |  | 361,941 |  | 538,186 | \$2,395,871 | \$3,594,469 |
| Buildings (e.g., Administration, Education, Housing, Historic Buildings | 1,693,349 |  | 2,471,720 |  | 684,837 |  | 1,007,113 | \$2,378,186 | \$3,478,833 |
| Other Structures (e.g., Recreation sites, Hatcheries, etc.) | 1,831,630 |  | 2,669,143 |  | 174,371 |  | 256,427 | \$2,006,001 | \$2,925,570 |
| Total | \$11,003,483 |  | \$16,205,383 |  | \$2,185,356 |  | \$3,165,133 | \$13,188,839 | \$19,370,516 |

(c) Critical Mission Deferred Maintenance—poses a serious threat to a bureau's ability to carry out its assigned mission; and,
(d) Other Deferred Maintenance Need-improves public or employee safety, health, or accessibility; completes unmet programmatic needs and mandated programs; protects natural or cultural resources; or, improves a bureau's ability to carry out its assigned mission.

Critical Deferred Maintenance is the work prioritized in the 5 -Year Plans for the BLM, USGS, FWS, NPS, BOR, and IA. Interior prioritizes deferred maintenance through these 5 -year plans.

## Estimated Deferred Maintenance

The bureaus' Facilities Maintenance Management Systems (FMMS) track the inventory of identified deferred maintenance. Bureaus are using performance measures to help managers to improve the condition of assets. The FMMS and performance measures contribute to determining the costs associated with improving the condition of constructed assets and the overall deferred maintenance backlog amounts.

Due to the scope, nature, and variety of the assets entrusted to Interior, as well as the nature of deferred maintenance itself, exact estimates of deferred maintenance are very difficult to determine. Interior has calculated estimates of deferred maintenance based on data from a variety of systems, procedures, and data sources. Interior acknowledges that to date the reliability of these sources as a basis for deferred
maintenance estimates may vary from bureau to bureau. However, the Interior's "Guidance on Deferred Maintenance, Current Replacement Value and Facility Condition Index in Life-Cycle Cost Management" is currently being updated with more detailed standard guidance for calculating deferred maintenance costs. This guidance will help ensure that a consistent estimating methodology is used across Interior.

## Condition Assessment Surveys

Interior has implemented a cyclic/recurring condition assessment process to monitor the condition of buildings and other facilities at least once every 5 years. The maintenance needs of Interior's real property assets are identified primarily through the annual and comprehensive condition assessment processes required by the Department of all bureaus.

Interior uses Condition Assessment Surveys to determine deferred maintenance for each class of assets. A condition assessment survey is the periodic inspection of real property to determine its current condition and to provide a cost estimate for necessary repairs. Annual condition assessments are performed on all constructed assets with a current replacement value of $\$ 5,000$ or more and are performed by field operating unit staff. Comprehensive condition assessments are performed on all constructed assets with a current replacement value of $\$ 50,000$ or more once every 5 years. Comprehensive assessments are usually performed under contract; the contract includes an inspection of the facility and all component systems, a summary of deficiencies found, and a recalculation of the current replacement value.

Interior's current estimate for deferred maintenance includes the following real property categories: nonheritage and heritage buildings and structures including multiuse assets, road assets, dams, water distribution systems, and power assets, etc. The estimate generally excludes fleet vehicles and most other categories of operating equipment, since ongoing maintenance is performed on these assets and such assets would be disposed of before they resulted in a critical deferred maintenance condition.

## Deferred Maintenance Estimate

Interior does not break out deferred maintenance from total maintenance spending for both annual budgets and actual amounts expended in program execution. The information contained in the Interior budget is a combined value for the amount of funds budgeted for deferred maintenance and sustainment funding. Additionally, some portion of the amount budgeted for construction funds is used to eliminate deferred maintenance. Consequently, the Interior's current approach for estimating the total amount needed to correct deferred maintenance for PP\&E ranges from approximately $\$ 13.2$ billion to $\$ 19.4$ billion.

The methodolgy used to calculate and report deferred maintenance data has been modified from that used in previous fiscal years. All bureaus now estimate deferred maintenance and report deferred maintenance summary data to an accuracy
level of minus 15 percent to plus 25 percent. This methodology revision was directed by Departmental management with input from the OMB to ensure deferred maintenance estimating and reporting accuracy and consistency is maintained among Interior's bureaus.

## MMS/MRM Compliance Assessments and Pre-assessment Work in Process

Management's best estimate of additional revenues that may potentially be collected from compliance assessments and pre-assessment work in process as of September 30, 2008, is $\$ 45.2$ million. This estimate is comprised of approximately $\$ 6.7$ million in Royalty in Kind (RIK) imbalance pre-assessment work in process, and approximately $\$ 38.5$ million in Compliance Asset Management (CAM) compliance assessments and pre-assessment work in process.

The amounts disclosed are subject to significant variability upon final resolution of the compliance work, due to numerous factors such as the receipt of additional third party documentation including volume revisions from pipeline or gas plant statements, pricing changes from purchaser statements, revised transportation invoices, interim imbalance statements with retroactive adjustments, ongoing reconciliations, and other information subsequently received.

| Primary Land Management Categories | As of <br> September 30, 2008 |  | Acceptable |
| :--- | ---: | ---: | ---: |
|  |  | Needs <br> Intervention |  |
| IA - Regional Offices | 12 | $100 \%$ |  |
| BLM - Geographic Management Areas | 134 | $100 \%$ |  |
| BOR - Federal Water and Related Projects | 142 | $100 \%$ | $1 \%$ |
| FWS - National Wildlife Refuges | 548 | $99 \%$ |  |
| FWS - Coordination Areas | 49 | $100 \%$ |  |
| FWS - Wetland Management Districts | 37 | $100 \%$ |  |
| FWS - National Fish Hatcheries | 67 | $100 \%$ |  |
| FWS - Fish Health Centers | 9 | $100 \%$ |  |
| FWS - Fish Technology Centers | 8 | $100 \%$ |  |
| FWS - Associated Fish Facilities | 19 | $100 \%$ |  |
| NPS - Park Units | 378 | $100 \%$ |  |
| OS - Commision Land | 1 | $100 \%$ |  |
| Total Number of Units | 1,404 | $100 \%$ | $0 \%$ |

## Condition of Stewardship Lands

Land is defined as the solid part of the surface of the earth and excludes natural resources (that is, depletable resources and renewable resources) related to the land. Based on this definition, stewardship land is considered to be in acceptable condition unless an environmental contamination or liability is identified and the land cannot be used for its intended purpose(s). Information regarding the financial liabilities identified as probable or reasonably possible and that potentially affect the condition of Stewardship Land are located in Note 14, "Contingent Liabilities and Environmental and Disposal Liabilities."

## Condition of Heritage Assets

## Noncollectible Heritage Assets

The condition of land based noncollectible heritage assets is based on the condition of the land, as described above. The condition of structure based noncollectible heritage assets is based on the requirements described in the deferred maintenance section. The condition of Interior's noncollectible heritage assets are shown in the following table.

|  |  | Condition Expressed as a Percentage |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Land Based |  | Structurally Based |  |  |
| Primary Non-Collectible Heritage Asset Categories | As of September 30, 2008 | Acceptable | Needs Intervention | Acceptable | Unacceptable | Unknown |
| Cooperative Management and Protection Areas | 1 | 100\% |  |  |  |  |

| Total | 1,765 | 100\% | 0\% | 94\% | 4\% | 2\% |

## Collectible Heritage Assets

## Library Collections

Condition assessment standards were developed in FY 2007 for Interior libraries. These standards are in agreement with national standards (The National Information Standards Organization publication on the Environmental Guidelines for the Storage of Paper Records) and are based on temperature and humidity, exposure to light, gaseous contaminants, and particulates. Library facilities must meet the
requirements of at least two of the four components to be considered in good or fair condition. As with the museum collections, the goal of safeguarding is to preserve the items in library collections for as long as possible and to manage their condition in accordance with the intended use and not to unduly hasten their deterioration.

| Interior Library Collections | As of <br> September 30, 2008 |  | Condition of Library Collections |  |
| :--- | :---: | :---: | :---: | :---: |
|  |  | Good | Fair | Poor |
|  | 7 |  | $86 \%$ | $14 \%$ |

## Museum Collections

Facilities housing Department museum collections must meet specific environmental, security, fire protection, housekeeping, physical examination, and conservation treatment, storage, and exhibit space standards, as described in Chapter 3 of Departmental Manual Section 411. These standards require facilities that house collections to maintain their stewardship responsibilities by adhering to best practices as defined by industry standards.

The primary focus within museum collections is preservation. Great attention is given to stablizing objects in the condition in which they were received and preventing further deterioration. Museum objects are generally expected to be preserved indefinitely. The goal of safeguarding is to preserve the heritage asset for as long as possible and to manage the condition in accordance with the intended use and not to unduly hasten their deterioration.

| Interior Museum Collections | As of <br> September 30, 2008 | Condition of Museum Collections |  |  |  |
| :--- | ---: | :---: | :---: | :---: | :---: |
|  |  | Good | Fair | Poor | Unknown |
| Held at Interior Bureau Facilities | 595 | $43 \%$ | $33 \%$ | $23 \%$ | $1 \%$ |
| Held at Non-Interior Bureau Facilities | 480 | $51 \%$ | $27 \%$ | $6 \%$ | $16 \%$ |
| Total | 1,075 | $46 \%$ | $30 \%$ | $16 \%$ | $8 \%$ |
